Summary

Wiseguyreports.Com Adds “[Electrical Enclosure Market 2017 Global Analysis, Growth, Trends and Opportunities Research Report Forecasting to 2022](#)”

the Global Electrical Enclosure market is estimated at \$4.99 billion in 2015 and is expected to reach \$8.29 billion by 2022 growing at a CAGR of 7.15% from 2015 to 2022. The Primary factors driving the electrical enclosure market are attractive industrial automation, home automation segments and industrial safety regulations. Huge investments in renewable energy projects by various governments and heavy demand for process automation in food & beverage sector are the opportunities involved for the market growth. The high price of enclosures and highly fragmented market are the major restraints for the market growth.

The smart home equipment penetration is expected to boost the demand for electrical enclosure market. Asia Pacific electrical enclosure market is expected to register a significant CAGR during the forecast period. Stringent government regulations against emission, increasing automotive production, changing consumer preferences are some of the factors which are influencing the market growth in Asia Pacific region.
