

Global Skin Grafting Market Is Estimated to grow at a CAGR of 13.5 % from 2017-2023

Market research future has a half cooked research report on global skin graft market. Which is growing at a rate of 13.5 % during the forecast period.

PUNE, MAHARASHTRA, INDIA, July 26, 2017 /EINPresswire.com/ -- The [skin graft market](#) is chiefly driven by rise in cases of accidents, burns, surgeries requiring removal of skin, skin loss due to infection such as necrotizing fasciitis or purpura fulminans and cancer etc. The rise in the number of plastic surgeries due to the growing influence of the fashion and media industry coupled with the development of tourism sector has led to the growth of the market. The [global skin graft market](#) represents a bipolar outlook with huge difference in the rural and metropolitan regions. The developed metropolitan regions especially with tourism and fashion industry sectors such as Bangkok, Las Vegas, and Los Angeles etc. have skin graft surgeries disproportionate to their population and needs.

The skin graft market is led by the product development strategy which is being witnessed in the equipment section and most prominently the dermatome. Dermatome is a surgical instrument used to create thin slice the skin in skin grafting. Latest technological developments have led to the development of advanced dermatomes such as air dermatome which is more efficient and allows for greater control and accuracy in slicing skin of uniform thickness. As the use of dermatomes is dependent on the skill of the surgeons, scarcity of skilled surgeons is acting as a constraint on the global skin graft market.

Global Skin graft Market Players:

Key players profiled in the report are

- Organogenesis, Inc.
- Specmed Medical
- Stratatech Corp
- Tissue Regenix Group PLC
- Avita Medical
- Convatec Inc

- Medrotonic
- Coloplast
- B.Braun Melsungen
- Zimmerbiomet
- Stratatech Corporation
- Zimmer Biomet

Test the market data and market information presented through more than 50 market data tables and figures spread over 80 pages of the project report. Avail the in-depth table of content (TOC) & market synopsis on “Global Skin graft Market” Research Report – Forecast to 2023.

Segmentation:

The global skin graft market is segmented on the basis of graft type, graft thickness and applications. Based on graft type, the market has been segmented as autologous, isogeneic, allogeneic, xenogeneic and prosthetic. Based on the graft thickness, the market has been segmented as split-thickness, full-thickness and composite graft. Based on the applications, the market has been segmented as extensive wound, burns, extensive skin loss due to infection, skin cancers and others. Based on the equipment, the market has been segmented as dermatome (knives dermatomes, drum dermatomes, electric dermatomes, air dermatomes), general surgical instruments, consumables and others. Based on the end users, the market has been segmented as hospitals and clinics, academic and research and others.

Study objectives:

- To provide a detailed analysis of the market structure along with estimated future growth forecast for the next six years about various segments and sub-segments of the global skin graft market
- To provide insights about factors affecting the market growth
- To analyze the global skin graft market based on various factors - Price Analysis, Supply Chain Analysis, Porters Five Force analysis etc.
- To provide past and estimated future revenue of the market's segments and sub-segments with respect to four main geographies and their countries - the Americas, Europe, Asia Pacific along with Middle East & Africa
- To provide country level analysis of the market with respect to the current market size and future growth prospects
- To provide country level analysis of the market which includes segmentation by graft type, graft thickness, applications, equipment and end users.
- To provide overview of key players and their strategic profiling in the market, comprehensively analyzing their core competencies, and drawing a competitive landscape of the market
- To track and analyze developments which are competitive in nature such as joint ventures, strategic alliances, mergers and acquisitions, new product developments along with research and developments that are currently taking place in the global skin graft markets

Intended Audience

- Global Skin graft, manufacturers & suppliers
- Research and development (R&D) companies
- Market research and consulting service providers
- Academic institutes and universities
