

Metal Fiber Market 2017: Company Profiles, Market Segments, Landscape and Demand by Forecast 2023

Global Metal Fiber Market Information- by type, by Application, by End User and by Region - Forecast till 2023

PUNE, MAHARASHTRA, INDIA, July 27, 2017 /EINPresswire.com/ --

Synopsis of [Metal Fiber Market](#):

The Global Metal Fiber Market is expected to witness a significant growth with CAGR of ~7.9% between 2016 and 2023.

Metal Fiber also known as Metallic Thread or Metallic Fiber originate from metal, plastic coated metal, metal coated plastic or completely covered by metal. Additionally, they can resist high temperatures, abrasion and resistant to chemicals. In polymers metal Fibers minimize breakage and chemical deterioration also Metal Fibers reduce static electricity and heat. Metallic Fibers are used in combination with other fibers in upholstery, clothing, and carpets and static electricity resistance.

Metal Fiber has found in various applications such as filtration, ESD/EMI protection, glass manipulation, heating, or other specialties. EMI shielded Metal Fibers products are a part of our everyday life. For instance, CPUs and circuit boards all use EMI coatings, laptop computers, desktop computers, tablets, mobile phones and more. Increasing in need to make high resistance to make more life of the product will increase the demand of Metal Fiber with the increasing requirements of end user industries such as automotive, textiles, plastic, glass, and others.

“

The Global Metal Fiber Market is expected to witness a significant growth with CAGR of ~7.9% between 2016 and 2023.”

Key Players:

Key players of the Global High Metal Fibers Market are Bekaert (Europe), Toho Tenax America, Inc. (USA), Hollingsworth & Vose Company (USA), Carlisle Companies Incorporated (US), Magnetic Shield Corporation (USA), Dexmet Corporation (USA), Interstate Specialty Products (USA), and Others.

Study Objectives of Metal Fibers Market:

- To provide detailed analysis of the market structure along with forecast for the next 7 years of the various segments and sub-segments of the Global Metal fibers Market.
- To understand the supply and demand dynamics including supply and consumption concentration mapping.
- To provide region level market analysis and future outlook for North America, Europe, Asia, and Rest of the World (ROW) and their countries.

- To provide competitor positioning of the market.
- To provide company profiling of major players in the market along with their production and capacity.
- To provide regional trade analysis.
- To evaluate historical market trends, patents and technologies, and current government regulatory requirements that are relevant to the market.

Segment Analysis:

The Global Metal Fiber Market is majorly segmented on the basis of types, application, end user and region. Based on types market is segmented into nickel, aluminum, copper, gold, silver, and others. Based on application market is segmented into filtration, ESD/EMI protection, hot glass manipulation, heating, or other specialties, based on end user market is segmented into automotive, textiles, plastic, glass, and others and based on region market is segmented into North America, Europe, APAC, Latin America, Middle East & Africa.

Automotive and textile industries including applications like filtration, ESD/EMI protection, hot glass manipulation, continued to be the highest end use of Metal Fiber in the North America and APAC. Most Metal Fiber consumed by the glass industry to reduce deformations and scrap. Global market Metal Fiber is driven by demand from North America, APAC, Europe, South America and Middle East.

Key Points from Table of Content:

11. Company Profiles

11.1 Bekaert

11.1.1 Company Overview

11.1.2 Product/Business Segment Overview

11.1.3 Financial Updates

11.1.4 Key Developments

11.2 Toho Tenax America

11.2.1 Company Overview

11.2.2 Product/Business Segment Overview

11.2.3 Financial Updates

11.2.4 Key Developments

11.3 Toho Tenax America

11.3.1 Company Overview

11.3.2 Product/Business Segment Overview

11.3.3 Financial Updates

11.3.4 Key Developments

11.4 Carlisle Companies Incorporated

11.4.1 Company Overview

11.4.2 Product/Business Segment Overview

11.4.3 Financial Updates

11.4.4 Key Developments

About Market Research Future:

At Market Research Future (MRFR), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRFR team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by Components, Application, Logistics and market players for global, regional, and country level market segments, enable our clients to see more, know more, and do more, which help to answer all their most important questions.
