

Anti Corrosion Coating Market 2017 - 3M (US), BASF SE (Germany), Hempel Group (Europe), Kansai Paint Co., Ltd (Japan)

Global Anti Corrosion Coating Market Information- by Type, by Application, by End User Industry and by Region - Forecast till 2023

PUNE, MAHARASHTRA, INDIA, July 27, 2017 /EINPresswire.com/ --

Synopsis of [Anti Corrosion Coating Market](#):

The Global Anti Corrosion Coating Market is expected to witness a significant growth of USD ~ 33.27 Billion by 2023 with CAGR of ~5.3% between 2016 and 2023.

resistant coatings have concerned for many years due to its durability and efficiency. The various Corrosion Coatings have been produced and tried in an attempt to contest the destructive effects of corrosion on metal. Due to the variations in the physical and chemical properties of the different types of metals and alloys, each coating is dependent on the type of metal it is applied to and the application such as water-based coating, solvent-based coating, powder coating, and others in which it is exposed.

Anti-Corrosion Coating has found in various applications such as oil & gas, shipbuilding, marine, energy, transport,

automotive, and others. Increasing in demand of marine and shipbuilding industry is likely to drive the Anti-Corrosion Coating Market growth. Furthermore, rising offshore production, growing marine industry in Asia Pacific and North America region, and upgrading of infrastructure through various region has boosted the Global Anti Corrosion Coating Market over the forecasted period.

Key Players:

Key players of the Global Anti Corrosion Coating Market are 3M (US), BASF SE (Germany), Hempel Group (Europe), Kansai Paint Co., Ltd (Japan), PPG Industries (US), The Dow Chemical Company (US), Wacker Chemie AG (Germany), Valspar (US), Bluchem (South Africa), RPM International Inc.(US), and Others.

Study Objectives of Anti Corrosion Coating Market:

- To provide detailed analysis of the market structure along with forecast for the next 7 years of the various segments and sub-segments of the Global Anti Corrosion Coating Market.

- To understand the supply and demand dynamics including supply and consumption concentration mapping.
- To provide region level market analysis and future outlook for North America, Europe, Asia, and Rest of the World (ROW) and their countries.
- To provide competitor positioning of the market.
- To provide company profiling of major players in the market along with their production and capacity.
- To provide regional trade analysis.
- To evaluate historical market trends, patents and technologies, and current government regulatory requirements that are relevant to the market.

Segmentation:

The Global Anti Corrosion Coating Market is majorly segmented on the basis of types, application, end users and region. Based on types of market is segmented into epoxy, zinc, acrylic, silicone, polyurethane alkyd, chlorinated rubber, and others (fluorocarbons, co-polymers, graphene, ceramic, and glass flakes). Based on application of Anti-Corrosion Coating the Market is segmented into Water-based coating, solvent-based coating, powder coating, and Others (antifouling coatings, high-energy cure coatings, nano-coatings). Based on end user the market segmented into oil & gas, shipbuilding, marine, energy, transport, automotive, and others (pipes & tanks, power plants, wastewater treatment plants, wind turbines, construction) and based on region market is segmented into North America, Europe, APAC, Latin America, Middle East & Africa.
