

Global Molded Fiber Packaging Market is Predicted to Grow at Approximately 7 % By 2023

Market research future published a half cooked research report on global molded fiber packaging market, which is expected to grow at a CAGR of around 7% by 2023

PUNE, MAHARASHTRA, INDIA, July 27, 2017 /EINPresswire.com/ -- [Global Molded fiber packaging market](#) Information by Type (Thick-Wall, Transfer, Thermoformed (Thin-wall), Processed), By End-Use (Food and Beverages, Electronic, Personal Care and Others) and By Region – Forecast To 2023

[Molded fiber packaging market](#) is majorly

driven by the increase in demand from the manufacturers of egg packaging. The use of molded fiber packaging for eggs ensures prevention of spoilage and breakage of eggs during distribution and transportation. The increasing adoption of environment friendly packaging solutions among the end use industries such as food & beverage and electronics, is also driving the global molded fiber packaging market.

Market Research Analysis

Based on all types of molded fiber packaging, the market has been segmented as Thick-Wall, Transfer, Thermoformed (Thin-wall) and Processed. The transfer molded segment is expected to dominate the market. The transfer molded segment is being manufactured by combining one forming mold with transfer mold. The surface of such molds are smoother on one side and thus, are mostly used as cartons and trays for storing eggs. The new designs of transfer molds are being used for many types of electronic product packaging such as cells phones and DVD players. These are also being used for other applications such as hospital disposables, office equipment and fruits and drink trays.

Based on end-use, molded fiber packaging market has been segmented as food and beverages, electronic, personal care and others. The food and beverage segment accounts for the largest share among all applications in the molded fiber packaging market. Molded fiber packaging required for food and beverages include clam-shells, carryout food containers, Cups, Bowls, plates, food and serving trays, Egg, fruit, berry, mushroom etc. containers & trays and Bottled products, wine, Jellies and others.

Scope of the Report

This study provides an overview of the global molded fiber packaging market, tracking two market segments across four geographic regions. The report studies key players, providing a five-year annual

trend analysis that highlights market size, volume and share for North America, Europe, Asia Pacific (APAC) and Rest of the World (ROW). The report also provides a forecast, focusing on the market opportunities for the next five years for each region. The scope of the study segments the global molded fiber packaging market by its type, end-use and region.

By Type

- Thick-Wall
- Transfer
- Thermoformed (Thin-wall)
- Processed

By End-Use

- Food And Beverages
- Electronic
- Personal Care
- Others

By Region

- North America
- Asia Pacific
- Europe
- Rest of the World

Key Players

- Huhtamaki (Finland)
- UFP Technologies, Inc. (U.S.)
- Moulded Fibre Product Ltd. (U.K.)
- Henry Moulded Products Inc. (U.S.)
- Brødrene Hartmann A/S (Denmark)
- Cullen Packaging Ltd. (U.K.)
- EnviroPAK Corporation (U.S.)
- Heracles Packaging Company SA (Greece)
- Keiding, Inc. (U.S.)
- Hurley Packaging of Texas (U.S.)

Study Objectives of Molded fiber packaging market

- To provide detailed analysis of the market structure along with forecast for the next 6 years of various segments and sub-segments of the global Molded fiber packaging market
- To provide insights about factors affecting the market growth
- To analyze the global molded fiber packaging market based on various tools such as Price Analysis, Supply Chain Analysis, Porters Five Force Analysis
- To provide historical and forecast revenue of the market segments and sub-segments with respect to four main geographies, North America, Europe, APAC, and Rest of the World (ROW) and their countries
- To provide country level analysis of the market with respect to the current market size and future prospective
- To provide country level analysis of the market for segment by type, end-use and regions
- To provide strategic profiling of the key players in the market, comprehensively analyzing their core competencies, and drawing a competitive landscape for the market
- To track and analyze competitive developments such as joint ventures, strategic alliances, mergers and acquisitions, new product developments, and research and developments in the global molded fiber packaging market.

Regional Analysis of Global Molded Fiber Packaging Market

The North America region is expected to dominate the growth of the molded fiber packaging market, owing to the increase in demand for consumer goods such as food & beverage and household products and the need for their efficient packaging. The Asia-Pacific region is also expected to grow, owing to the existence of a large number of manufacturers in the region and increase in demand of molded fiber packaging by them.
