A pleasure boat or pleasure craft is a boat/craft usually deployed for personal, family, and at times sportsmanlike recreation. Basically, it is a large motorboat with a cabin and plumbing and other amenities required for living on board. Characteristically, such watercrafts are motorized and find use in holidays on a river, lake, canal or waterway. Normally, pleasure boats are kept at a marina. In year 2009 when the leisure boating industry revived from recession and gained its momentum, there was a rapid trudge in the number of leisure boats sold. Since then, there have been fluctuations in the industry.

North America and Europe are the largest producers and consumers of the boating market. In North America, the US holds the largest share of recreational boat market. Belgium, Croatia, Czech Republic and Germany are some of the major recreational boating markets in European region. The share of recreational boating market is expected to grow at higher rate in Europe as compared to North America.
