

LOBO Advanced Platform System - Product Launch

New Product Launch – Contractor Kit 1

DERBY, DERBYSHIRE, UNITED KINGDOM, July 31, 2017
/EINPresswire.com/ -- The [LOBO System](#) can be assembled quickly, easily and safely in around, above desks or restricted access areas, without the need for tools, by your own in-house maintenance crew. This means out sourced scaffolding labour costs can be reduced without comprising safety. Areas, [previously considered difficult](#) to get to, can now be accessed with ease for maintenance and cleaning purposes.

In addition, the LOBO System is available 24 x 7 and so puts you in control of what and when you schedule your maintenance tasks.

The LOBO Contractor Kit 1 quickly flat packs into a small van for field based engineers.
It can be assembled to a maximum standing height of 2.75m/9ft and uses 1.2m/4ft LOBO deck boards as shown.

The Contractor Kit

Wheels are optional, and with outriggers for stability, toe boards and a ladder the kit is complete and can quickly be assembled within 20 minutes. The LOBO Contractor Kit can be removed from the van and assembled into a trolley to facilitate easy site transportation before it is configured into a full system.

“

This is a fantastic product, lightweight, portable versatile and sturdy, the possibilities are endless the system will adapt to any situation regardless. Plays a major part in our maintenance activities.”

Richard Slater- Crown Holdings

Safety : Steel modular components, rigid structure and extremely adjustable.

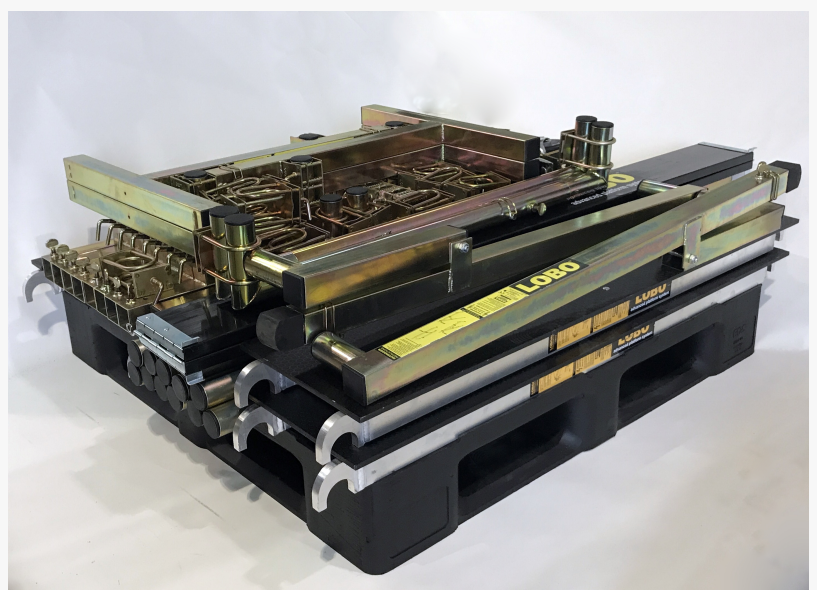

Assembly : Fast, no tools are required and the system flat packs for easy transportation

Multiuse: Reconfigured for different requirements.

Any Shape or Size : Can be made smaller or larger with the addition of kit.

Training: [Certified competency training](#) is available to ensure safe assembly and use.
