

# Global Surge Protection Devices Market Key Players, Size, Share, Demand and Research Report 2023

*Global Surge Protection Devices Market Information Report by Type, by Application, by voltage types and by Regions - Global Forecast To 2023*

PUNE, MAHARASHTRA, INDIA, August 8, 2017 /EINPresswire.com/ -- Market Highlights

Major key Players include Siemens AG, Eaton Corporation Plc., Littelfuse, Inc, ABB, Ltd, Schneider Electric SE, General Electric”  
*Market Research Future*

Globally, there is a rise in the number of infrastructure projects. Especially, in North America and Europe, there is an increased number of urbanization projects underway where protection of electronic applications is of top priority. This is mainly due to the increased contribution of alternative energy systems to dwellings and the digitization projects of the automobile and industrial manufacturing processes. In the Asia Pacific region, there is need for surge protection devices since there is the issue of power quality and sudden high voltage, which can damage the electronic equipment.

## Market Research Analysis

North America is expected to dominate the [surge protection devices market](#). This is mainly due to the fact that urbanization projects are rising in the region. Similarly, in the Europe region, digitization of manufacturing process, especially in the automobile and industrial sector is driving the market. For achieving higher production efficiency, intelligent ICT based machine systems that are capable of performing independently, are being implemented. This is acting as a lucrative market for surge protection devices. The Asia Pacific region is expected to achieve the highest CAGR during the forecast period.
