

# Managed Mobility Services Market Churning Fortune with a Remarkable CAGR Count: An Analytical Forecast By MRFR

*Managed Mobility Services Market By Function (Device & Application Management, Security Management and Support & Maintenance), Organization Size and Vertical*

PUNE, MAHARASHTRA, INDIA, August 7, 2017 /EINPresswire.com/ -- Market Highlights

In this rapidly changing world of technology, [managed mobility services market](#) is projected to show major growth prospects during the forecast period. Owing to increasing adoption of BYOD, there is a massive growth in the managed mobility services market. Managed mobility services are cost efficient and help in saving time so that the organization could concentrate better on their primary activities.

As compared to other regions, the Managed Mobility Services Market in North America is expected to witness significant growth and hold the largest market share during the forecast period. U.S and Canada are anticipated to drive the growth of managed mobility services market. This is owing to the presence of large number of established service providers in that region. In addition to this, the region also has a well-established infrastructure which allows higher penetration of devices and ultimately provides high speed connectivity. This is expected to be a major factor for the growth of managed mobility services market.

Managed Mobility Services Market is growing rapidly over 32% of CAGR and is expected to reach at approx. USD 28 Billion by the end of forecast period.

Managed Mobility Services Market Players:

- AT&T, Inc. (U.S.)
- Eujitsu Ltd. (Japan)
- IBM Corporation (U.S.)

- Wipro Ltd. (India)
- Orange S.A. (France)
- TSP (U.S.)
- Vodafone Group PLC (U.K.)
- Accenture PLC (Ireland)
- Telefonica S.A. (Spain)
- Deutsche Telekom AG (Germany)

#### Market Research Analysis:

The global managed mobility services market, by geography, has been segmented into North America, Europe, Asia Pacific and Rest of the World. In the global managed mobility services market, Asia Pacific is anticipated to witness relatively faster adoption and is expected to grow at the highest CAGR during the forecast period as compared to other regions. Within Asia Pacific, managed mobility services market is projected to contribute faster to the growth of revenue backed by increasing demand for distance learning and growing demand for technical education in countries such as Japan, China and India. Increasing adoption by small and medium enterprises could be a major factor driving the growth of managed mobility services market in the region.

Across Europe, countries including Germany, France and the U.K. are anticipated to drive the growth of managed mobility services market. In Europe, the rising demand for dynamic learning environment is the major driving factor for the growth of managed mobility services market. The presence of advanced infrastructure and with the increasing adoption of technological advances in numerous countries are other factors driving the growth of managed mobility services market.

Managed mobility services market in the South America region is anticipated to witness relatively slower market growth. However, Brazil and Argentina among other countries are projected to witness slow yet steady growth. Managed mobility services market in Middle East and Africa occupies a relatively smaller pie of the global managed mobility services market.
