The Pennsylvania Mesothelioma Victims Center fears that most Navy Veterans or power/energy workers with mesothelioma will never get close to the amount of financial compensation they should have received. The mesothelioma claim process can be complicated, especially if the attorneys representing the diagnosed person do not know what they are doing.

The truth is that mesothelioma compensation claims involving power plant workers, nuclear power workers or US Navy Veterans who served on a nuclear-powered ship or submarine are complex. Pennsylvania has nearly three dozen coal fired power plants, five nuclear power plants, and thousands of US Navy Veterans who served on a nuclear powered aircraft carrier, or a nuclear-powered submarine. The only chance a person with this cancer caused by asbestos exposure receives the best possible financial compensation is they have the nation's most qualified

mesothelioma attorneys representing them as the group would like to explain anytime at 800-714-0303.
