Latest Report on Bulk Terminals Market Global Analysis & 2023 Forecast Research Study

Global Bulk Terminals market is expected to grow from \$5.20 billion in 2016 to reach \$7.41 billion by 2023 with a CAGR of 5.1%. Rising demand from industrial output, increasing usage of bulk commodities and its affordability in emerging countries are some of the factors fuelling the market. In addition downfall of coal consumption and business reforms in some countries are hindering the market growth.

Based on type, dry bulk segment has acquired the largest market share and growth of this segment is attributed to developing countries and their cleaner energy utilizing approach and thus restricting the coal consumption. China is expected to witness huge growth rate followed by North America and the growth is attributed to the rising demand of grain bulk terminals in this region.
