

Satellite Transponder 2017 Global Market Expected to Grow at CAGR 4.83% and Forecast to 2021

The analysts forecast the global satellite transponder market to grow at a CAGR of 4.83% during the period 2017-2021.

PUNE, INDIA, August 10, 2017 / EINPresswire.com/ --

[Global Satellite Transponder Market](#)

Description

Satellite transponders receive electromagnetic or radiofrequency signals from the Earth, amplify these, and send them back to the Earth. These are important elements in communication satellites and receive signals with the help of frequency changers. A satellite consists of a number of transponders, which are used to receive a specified band of frequencies. A typical transponder provides a capacity of 36 MHz, which is the requisite for broadcasting an analog channel.

Covered in this report

The report covers the present scenario and the growth prospects of the global satellite transponder market for 2017-2021. To calculate the market size, the report considers the revenue generated through the sales of different types of frequency bands that a satellite transponder utilizes.

The market is divided into the following segments based on geography:

- Americas
- APAC
- EMEA

The Global Satellite Transponder Market 2017-2021, has been prepared based on an in-depth market

analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- Eutelsat
- Inmarsat
- Intelsat
- SES

Other prominent vendors

- Arabsat
- Asia Satellite Telecommunications
- O3b Networks

Market driver

- Emergence of broadband access, DTH, and DTT
- For a full, detailed list, view our report

Market challenge

- Time delay in communication
- For a full, detailed list, view our report

Market trend

- Growing demand for FSS
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2021 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?

Table of Contents -Major Key Points

PART 01: Executive summary

PART 02: Scope of the report

PART 03: Research Methodology

PART 04: Introduction

Market outline

PART 05: Market landscape

- Market overview
- Market size and forecast
- Five forces analysis

PART 06: Market segmentation by application

- Global satellite transponder market in communication
- Global satellite transponder market in Earth observation
- Global satellite transponder market in technology development
- Global satellite transponder market in navigation
- Global satellite transponder market in space science

PART 07: Market segmentation by band type

- Market overview
- Global satellite transponder market by Ku band
- Global satellite transponder market by C band
- Global satellite transponder market by Ka band
- Satellite transponder market by others

PART 08: Geographical segmentation

- Market segmentation by geography
- Satellite transponder market in EMEA
- Satellite transponder market in the Americas
- Satellite transponder market in APAC

PART 09: Decision framework

PART 10: Drivers and challenges

- Market drivers
- Market challenges

PART 11: Market trends

- Demand for high data-rate (HDR) applications
- Growing demand for FSS
- Innovations and growth in HDTV and video broadcasting

PART 12: Vendor landscape

Competitive scenario
Other prominent vendors

PART 13: Key vendor analysis

Eutelsat
Inmarsat
Intelsat
SES
