Major players Covers in neurosyphilis market:

Abbott (US),
Bayer AG (Germany),
Eli Lilly and Company (US),
GlaxoSmithKline plc. (UK),
Novartis AG (Switzerland),
Pfizer Inc. (US),
Sanofi (France),

Taste the market data and market information presented through more than 52 market data tables and figures spread over 80 pages of the project report. Avail the in-depth table of content TOC & market synopsis on "[Neurosyphilis Market Research Report–Global Forecast to 2023.](#)"

Regional Analysis:

Considering the global scenario of the neurosyphilis market, there are four main regions, America, Europe, Asia Pacific, and Middle East & Africa.

America is the largest market for neurosyphilis. The Americas mainly include North America and Latin

America. North America is holding the largest market share in which US is dominating this market. Due to advanced diagnostic and treatment facilities, funding for research, clinical trials and new drugs and therapy development, and rapid adoption of new therapies, North America region is dominating the global neurosyphilis market. European region is the second important market, especially West European countries are dominating this region. Eastern European countries are also showing significant growth in this market. Asia Pacific market is witnessing rapid growth due to increasing incidence and awareness of neurosyphilis, increasing healthcare expenditure and government initiative to increase awareness as well as to provide affordable healthcare. Talking about the market scenario of Middle East & Africa, this region is expected to grow slower than global average during the forecast period due to various factors such as increasing lack of knowledge, limited access to the required healthcare facilities, availability of required products are restricting the growth of this market etc.

Segmentation:

Global neurosyphilis market has been segmented on the basis of type which comprise asymptomatic neurosyphilis, meningeal neurosyphilis, meningovascular neurosyphilis, general paresis, tabes dorsalis, and others.

On the basis of diagnosis, the market is segmented into physical exam, blood test, spinal tap, imaging tests, and others. Blood test is further subsegmented into Venereal disease research laboratory (VDRL) test, Fluorescent treponemal antibody absorption (FTA-ABS), Rapid plasma reagin (RPR), Treponema pallidum particle agglutination assay (TPPA), and others. Imaging tests is further sub-segmented into Computed Tomography (CT), X-rays, Magnetic resonance imaging (MRI), and others.

On the basis of treatments, the market has been segmented into antibiotic penicillin, antibiotics probenecid, ceftriaxone and others. Antibiotic penicillin is further sub-segmented into Injection and oral.

On the basis of end user, it is segmented into hospital and clinics, medical research centers, academic institutes, and others.

Table Of Contents – Major Key Points

1. Report Prologue
2. Introduction
 - 2.1 Definition
 - 2.2 Scope of the Study
 - 2.2.1 Research Objective
 - 2.2.2 Assumptions
 - 2.2.3 Limitations
 - 2.3 Market Structure
 - 2.4. Market Segmentation
3. Research Methodology
 - 3.1 Research Process
 - 3.2 Primary Research
 - 3.3 Secondary Research
 - 3.4 Market Size Estimation
 - 3.5 Forecast Model
4. Market Dynamics
 - 4.1 Drivers
 - 4.2 Restraints

- 4.3 Opportunities
 - 4.4 Mega Trends
 - 4.5 Macroeconomic Indicators
 - 5. Market Factor analysis
 - 5.1 Value chain analysis
 - 5.2 Porters Five Forces analysis
 - 5.3 Demand & Supply: Gap analysis
 - 5.4 Pricing analysis
 - 5.5 Investment Opportunity analysis
 - 5.6 Merger and Acquisition landscape
 - 5.7 Upcoming trends
 - 6. Global Neurosyphilis Market by Type
- Continue.....
