

Compactors Market is Estimated to Grow at a CAGR of 3% from 2016 to 2022

Compactors Market by Type (Landfill Compactors, Trash Compactors), End User (Residential, Commercial, Industrial) and Region - Global Forecast to 2022

PUNE, MAHARASHTRA, INDIA, August 15, 2017 /EINPresswire.com/ -- Market Highlights: "We enable our customers to unravel the complexity."

Market Research Future

Market Research Future published a half Cooked Research Report on Compactors Market. The <u>Global Compactors Market</u> is expected to grow over the CAGR of around 3% during the period 2016 to 2022.

"

Key Players in market are Terra Compactor Wheel Corp (U.S.), Caterpillar Inc., (U.S.), BOMAG GmbH (Germany), Marcel Equipment Limited (Canada), HJ Industries (U.S), Humdinger Equipment Ltd. (U.S)" Market Research Future The compactor is a machine that compacts the layers of various materials and reduces the thickness of the respective layer by reducing the air voids. Modern trash compactors are coated with antimicrobials to inhibit the growth of odorproducing bacteria, and reduce the risk of potential health hazards, which increase the popularity of these compactors. The high maintenance cost of compactors may hamper the growth of the global compactors market.

Key Players:

The key players of global compactors market are Terra

Compactor Wheel Corp (U.S.), Caterpillar Inc., (U.S.), BOMAG GmbH (Germany), Marcel Equipment Limited (Canada), HJ Industries (U.S), Humdinger Equipment Ltd. (U.S), G.G. Compactors Limited. (U.K.), Hamm AG (Germany), Sakai America, In (U.S.), and MBW Incorporated (U.S).

Market Research Analysis:

On the basis of region, global compactors market is segmented into North America, Europe, Asia-Pacific and RoW. North America region accounts the largest market share of the global compactors market. Increasing cost of waste disposal is the primary driving factor of the market in North America region. The extensive usage of garbage collection services and the high adoption of the pay-as-youthrow program by waste management boards have increased the cost of waste disposal. Asia Pacific region is expected to grow at the fastest pace during the forecast period mainly due to the rapid growth in construction industry. Europe and RoW are expected to grow at a moderate pace during the forecast period.

Scope of the Report:

This study provides an overview of the global compactors market, tracking two market segments across four geographic regions. The report studies key players, providing a five-year annual trend analysis that highlights market size, volume and share for North America, Europe, Asia Pacific (APAC) and Rest of the World (ROW). The report also provides a forecast, focusing on the market opportunities for the next five years for each region.

The scope of the study segments the global compactors market by its type, end user and region.

By Type:

- Landfill Compactors
- Trash Compactors
- Vibratory Plate Compactors
- Others

By End User:

- Residential
- Commercial
- Industrial
- Others

By Region:

- North America
- Asia Pacific
- Europe
- Rest of the World

About Market Research Future:

At Market Research Future (MRFR), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRFR team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by products, services, technologies, applications, end users, and market players for global, regional, and country level market segments, enable our clients to see more, know more, and do more, which help to answer all their most important questions.

In order to stay updated with technology and work process of the industry, MRFR often plans & conducts meet with the industry experts and industrial visits for its research analyst members.
