As the Alabama Mesothelioma Victims Center would like to explain anytime at 800-714-0303 if a US Navy Veteran with mesothelioma in Alabama wants the best possible financial compensation they will need to hire a fulltime mesothelioma attorney who spends all of their work hours doing nothing but mesothelioma compensation claims nationwide. According to the CDC the states indicated with the highest incidence of mesothelioma include Maine, Massachusetts, Connecticut, Maryland, New Jersey, Pennsylvania, Ohio, West Virginia, Virginia, Michigan, Illinois, Minnesota, Louisiana, Washington, and Oregon. Mesothelioma also happens in New Mexico. However, based on the calls the Mesothelioma Victims Center receives a diagnosed victim of mesothelioma could live in any state including Alabama.

High-risk work groups for exposure to asbestos in Alabama include US Navy Veterans, power plant workers, shipyard workers, oil refinery workers, steel mill workers, manufacturing, or industrial workers, plumbers, electricians, auto mechanics, machinists, miners, or construction workers. Typically, the exposure to asbestos occurred in the 1950's, 1960's, 1970's, or 1980's.
