

Global Commercial Aircraft Turbine Blades & Vanes Market 2017 Share, Trend, Segmentation and Forecast to 2022

Commercial Aircraft Turbine Blades & Vanes -Market Demand, Growth, Opportunities and Analysis of Top Key Player Forecast To 2021

PUNE , MAHARASHTRA, INDIA, August 16, 2017 /EINPresswire.com/ -- [Commercial Aircraft Turbine Blades & Vanes](#) Industry

Description

Wiseguyreports.Com Adds “Commercial Aircraft Turbine Blades & Vanes -Market Demand, Growth, Opportunities and Analysis of Top Key Player Forecast To 2021” To Its Research Database

Global Commercial Aircraft Turbine Blades and Vanes Market by Aircraft Class (Narrowbody, Widebody, and Regional Transport Aircraft) and by Geography - Forecast To 2021

Market Synopsis of Global Commercial Aircraft Turbine Blades and Vanes Market

The Global Commercial Aircraft Turbine Blades and Vanes Market is expected to grow at a CAGR of around 6% during 2016-2021. Growing demand for improved aero-engine components is a major factor driving the market growth. For aircraft operators, the maintenance and repair cost associated with aircraft components constitute a major chunk of the operational cost. For a modern aircraft gas turbine engine, the cost largely depends on the durability of hot section components, which are continually subjected to high temperatures. Improvements in stages during design and construction help to extend their durability and service life, leading to less need for maintenance. Furthermore, the increase in aircraft and aero-engine sales along with the new aero-engine developments are expected to fuel the growth of the market market. Therefore, the market is expected to reach USD 1,279.8 million by the end of 2021 and is expected register a CAGR of 5.91%.

Regional and Country Analysis of Global Commercial Aircraft Turbine Blades and Vanes Market

As per the MRFR analysis, the APAC region will continue its dominance in the forecast period to reach \$565.5 million, to grow at a CAGR of 8%. The region presents countless opportunities for aerospace manufacturers, MRO companies, general aviation and aerospace players. Appetite for air travel continues to grow in the region. Strong growth in the upper-middle class segment followed by lower-middle class segment has paved the way for strong passenger numbers with highest growth in the region. Concurrently, Europe and Americas are expected to grow at a CAGR of 5.23% and 3.44%, respectively during the forecast period.

Key Players

Some of the key players in the Global Commercial Aircraft Turbine Blades and Vanes Market are GE Aviation, GKN Aerospace, Rolls Royce, Turbocam International, UTC Aerospace Systems, Chromalloy, Hi-Tek Manufacturing, Moeller Aerospace, and Snecma. In 2016, the companies such as GE Aviation, Rolls Royce, and UTC Aerospace Systems accounted for over 30% of the global market. As per the MRFR analysis, cost associated with materials, technical issues related to the fixture of turbine blades, and spare parts pricing transparency are the factors limiting the market growth.

Aircraft Turbine Blades and Vanes Market

Target Audience

- Turbine Blades and Vanes OEMs
- Engine OEMs
- Component Suppliers
- Potential Investors
- Key executive (CEO and COO) and strategy growth manager

The report also covers country level analysis:

Americas (North & Latin)

- US
- Canada
- Brazil
- Others

Europe

- Germany
- France
- Italy
- Spain
- U.K
- Rest of Europe

Asia – Pacific

- China
- India
- Japan
- Australia/New Zealand
- Rest of Asia-Pacific

Middle East & Africa

- UAE,
- Kuwait
- Israel
- Rest of Middle East & Africa

Study Objectives of Global Commercial Aircraft Turbine Blades and Vanes Market

- To provide detailed analysis of the market structure along with forecast for the next 5 years of the various segments and sub-segments of the Global Commercial Aircraft Turbine Blades and Vanes Market
- To provide insights about factors affecting the market growth
- To analyse the Global Commercial Aircraft Turbine Blades and Vanes Market based on various factors- price analysis, supply chain analysis, porter's five force analysis etc.

- To provide historical and forecast revenue of the market segments and sub-segments with respect to four main geographies and their countries- North America, Europe, Asia, and Rest of the World (ROW)
- To provide country-level analysis of the market with respect to the current market size and future prospective
- To provide country-level analysis of the market for segment by aircraft class
- To provide strategic profiling of key players in the market, comprehensively analysing their core competencies, and drawing a competitive landscape for the market
- To track and analyse competitive developments such as joint ventures, strategic alliances, mergers and acquisitions, new product developments, and research and developments in the Global Commercial

The market report for Global Commercial Aircraft Turbine Blades and Vanes Market of Market Research Future comprises of extensive primary research along with the detailed analysis of qualitative as well as quantitative aspects by various industry experts, key opinion leaders to gain the deeper insight of the market and industry performance. The report gives the clear picture of current market scenario which includes historical and projected market size in terms of value and volume, technological advancement, macro economical and governing factors in the market. The report provides details information and strategies of the top key players in the industry. The report also gives a broad study of the different market segments and regions.
