

Chemical Intermediate Applications to Boost Growth of Global Market during 2016 to 2022

Chemical Intermediate Market by Type (Reagents, Solvents), Application (Pharmaceuticals, Automotive), by Form (Liquid, Solid), and Region - Forecast 2022

PUNE, MAHARASHTRA, INDIA, August 25, 2017 /EINPresswire.com/ -- Synopsis of Chemical Intermediate Market:

“ We enable our customers to unravel the complexity.”

Market Research Future

Chemical Intermediate Market-Key Players:

The key players profiled in Chemical Intermediate Market are:

Key Players in market are INVISTA, SI Group Inc, Arizona Chemical, Chevron Oronite, ExxonMobil Chemical, Biosynth, R K Synthesis, AdvanSix Chemical intermediaries, BASF, and The DOW Chemical Company”

Market Research Future

- INVISTA, SI Group Inc,
- Arizona Chemical
- Chevron Oronite
- ExxonMobil Chemical
- Biosynth, R K Synthesis
- AdvanSix Chemical intermediaries
- Jay chemicals
- Himalaya chemicals
- BASF
- The DOW Chemical Company
- Aceto

Regional Analysis:

Geographically, Asia Pacific dominates the [Global Chemical Intermediate Market](#) share during the period 2011-2015 followed by North America. Europe is emerging market. Hence Global Chemical Intermediate Market has crossed USD 188.23 billion Mark in 2014 and is expected to grow constantly for the next 3 years.

Market Research Analysis:

- The top 5 manufactures of chemical intermediates includes Germany, China, U.S., Saudi Arabia, and Switzerland
- Chemical Intermediate are utilized in coatings, plastics, elastic textile fibers, detergents, pharmaceuticals and crop protectants

- The top 5 importing countries of chemical intermediates includes south Korea, Italy, U.K., France, and Japan.

Market Outlook:

Globally, the market for chemical intermediates is growing due to pharmaceuticals and petrochemicals. The driving factor of the market are chemical intermediate is a vital element for the production of textiles, polyvinyl chloride (PVC) and other plastics. In-addition, increasing demand for pharmaceutical and automotive industry is estimated to open up new growth avenues for the market. Chemical intermediates plants are across the world. However Mono-Ethylene Glycol is projected grow at CAGR of 15% the year 2022.

Report Details @ <https://www.marketresearchfuture.com/reports/chemical-intermediate-market-1925>

Intended Audience:

- Chemical intermediate manufacturers
- Pharmaceuticals
- Automotive industries
- Agriculture industries
- Retailers, wholesalers
- E-commerce companies
- Traders, Importers and exporters

This research report has provides the insights, on various levels of analyses such industry analysis, market share analysis leading market players and their profiles. This report also helps in studying the target segments by providing views on emerging & high-growth segments and market conclusion. Together the market data comprise and discuss with the basic assessments on the competitive scenarios & strategies, of the global healthy snack market, including the high-growth regions, countries and their political, economic and technological environments. Furthermore the project report also provides the views over the historical market values as well as, pricing and cost analysis of the same.

About Market Research Future:

At Market Research Future (MRFR), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRFR team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by products, services, technologies, applications, end users, and market players for global, regional, and country level market segments, enable our clients to see more, know more, and do more, which help to answer all their most important questions.

In order to stay updated with technology and work process of the industry, MRFR often plans & conducts meet with the industry experts and industrial visits for its research analyst members.
