

Aquafeed Industry Overview and Manufacturing Cost Structure: Forecast Report

Aquafeed Market - by Aquatic Species (Carps, Molluscs), Ingredients (Wheat), Additive Type (Vitamins), Life Cycle (Alevin) and Region - Forecast to 2022

PUNE, MAHARASHTRA, INDIA, August 25, 2017 /EINPresswire.com/ -- Market Research Future Published a Half Cooked Research Report on the Global [Aquafeed Market](#) has been estimated to grow over 7% post 2022

Competitive Analysis-

Major Key Players are Cargill Inc. (U.S.), BioMar Group (Denmark), Waterbase Ltd (India), BASF (Germany), Alltech Inc. (U.S.), Coppen International BV (Netherlands)"

Market Research Future

The key players in aquafeed market are Cargill Inc. (U.S.), BioMar Group (Denmark), Waterbase Ltd (India), BASF (Germany) are Alltech Inc. (U.S.) .), Coppen International BV (Netherlands), Ridley Corporation (Australia), Zeigler bros. Inc. (U.S.), Evonik Industries (Germany) and Marvesa (Netherlands)

Major suppliers have seen introduced the concept called environmental certified highly digestible feeds. Such products, also referred to as "low-pollution" feeds that serve to minimize buildup of deleterious organic and inorganic compounds within the culture system.

Market Overview

Aquafeed has become an important part of modern commercial aquaculture to provide balanced nutrition needed for fish. Traditional aquafeed manufacturers are still using fish meal and fish oil. Modern aquafeed types are produced by grinding and mixing together ingredients such as fishmeal, vegetable proteins and binding agents such as wheat which driving growth of the market.

Market Forecast

Aquafeed market is projected to grow at CAGR of 7% during the forecasted period 2016 to 2022 with increase in aquaculture activities all across the world. Availability of various ingredients and strong network of suppliers is also contributing in the growth of market. Growing seafood demand and rising production capacity which will play a critical role in the market.

"We enable our customers to unravel the complexity."

Market Research Future

Downstream market Analysis-

Aquafeed manufacturers are experiencing a variety of developments, including introduction of new concepts such as pellet stability and palatability as well as the designation "environmental certified feeds," which results in decreased damage to the culture system. High demand for fishmeal and its shortage has resulted in significant increase in use of various alternate protein ingredients. Significant differences has been noticed in aquafeed production starting from feeding habit to actual dietary fishmeal consumption.

Access the market data and market information presented through more than 25 market data tables and 25 figures spread over 110 numbers of pages of the project report "Global Aquafeed Market - Forecast to 2022"

Regional Analysis

APAC accounted for higher market share in the aquafeed during the period 2011-2015. Half of the China's aquafeed production is for carp. Most of the shrimps feed production occurs in Asia mainly in India and Thailand. Europe and North America, growing inclination towards salmon farming, rising demand for seafood, hardiness of the species and governmental interest have led to a higher demand for the market mainly from aquaculture firms

Key Findings:

Secondary data reveals that the aquafeed exports is projected to grow more than 2% annually post the year 2022

The top 5 exporters of aquafeed are U.S., Netherlands, Belgium, Germany and France

Major aquafeed manufacturers have focused on the use of dietary enzymes to impart greater nutrient digestibility/availability to the aquafeed

About Market Research Future:

At [Market Research Future \(MRFR\)](#), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRFR team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by products, services, technologies, applications, end users, and market players for global, regional, and country level market segments, enable our clients to see more, know more, and do more, which help to answer all their most important questions.

In order to stay updated with technology and work process of the industry, MRFR often plans & conducts meet with the industry experts and industrial visits for its research analyst members.
