

## Cartilage Repair 2017 Global Market Expected to Grow at CAGR 11.59 % and Forecast to 2021

WiseGuyReports.com adds "Cartilage Repair 2017 Global Market Expected to Grow at CAGR 11.59 % and Forecast to 2021 " reports to its Database.

PUNE, INDIA, August 21, 2017 /EINPresswire.com/ --

## Cartilage Repair SWOT Analysis And Forecast 2021

## About Cartilage Repair

Cartilage is a smooth elastic muscle, which covers the ends of the bone and serves as a bearing surface of the joint. Articular cartilage is produced by chondrocytes. Chondrocytes are the cells that divide and multiply very slowly as they do not have blood vessels. This is one of the reasons articular cartilage injuries do not repair well and can lead to continued degradation and deterioration of joint condition, leaving few treatment options available for the patients.

The treatment of articular cartilage has evolved tremendously in the past decade. Reparative and

restorative methods have been developed to address the significant source of morbidity in the young and active patients. Articular cartilage injury can be focal, which is localized or systemic. Procedures are being developed not only to alleviate the symptoms associated with articular cartilage defects but also to limit the progression of cartilage damages into degenerative diseases.

Technavio's analysts forecast the global cartilage repair market to grow at a CAGR of 11.59 % during the period 2017-2021.

## Covered in this report

The report covers the present scenario and the growth prospects of the global cartilage repair market for 2017-2021. To calculate the market size, the report considers the new sales/value of cartilage repair market.

The market is divided into the following segments based on geography:

- Americas
- APAC
- EMEA

Technavio's report, Global Cartilage Repair Market 2017-2021, has been prepared based on an in-

depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Table Of Contents

PART 01: Executive summary

PART 02: Scope of the report

PART 03: Research Methodology

PART 04: Introduction

Market outline

PART 05: Market landscape

- Market overview
- Market size and forecast
- Five forces analysis
- PART 06: Market segmentation by product
- Cell-based

• Non-cell-based cartilage repair products

PART 07: Market segmentation by end-user

- Hospitals and clinics
- ASCs
- Physicians' offices
- PART 08: Geographical segmentation
- Global cartilage repair market by geography 2017
- Cartilage repair market in the Americas
- Cartilage repair market in EMEA
- Cartilage repair market in APAC

PART 09: Drivers and challenges

- Market drivers
- Market challenges

PART 10: Market trends

- Gene therapy and stem cell therapy
- Increasing partnerships and collaborations
- Innovation and discovery of novel products
- PART 11: Vendor landscape
- Competitive landscape analysis
- PART 12: Key vendor analysis
- Acelity
- DePuy Synthes
- Stryker
- Smith & Nephew
- Key companies to watch
- Other prominent vendors

PART 13: Appendix

List of abbreviations

List of Exhibits

Exhibit 01: Global cartilage repair market: Overview

- Exhibit 02: Global cartilage repair market: Impact assessment
- Exhibit 03: Scope of cartilage repair market in various regions 2016-2021
- Exhibit 04: Global cartilage repair market 2016-2021 (\$ millions)
- Exhibit 05: Focus for existing companies and end-users
- Exhibit 06: Opportunity analysis of global cartilage repair market
- Exhibit 07: Five forces analysis
- Exhibit 08: Global cartilage repair market revenue by product in 2016-2021 (\$ million)
- Exhibit 09: Clinical study to prove the efficacy of chondrocyte transplantation
- Exhibit 10: Market overview: Cell-based cartilage repair products
