WiseGuyReports.Com Publish a New Market Research Report On - "Industrial Air Cleaners Market Segmentation, Application, Trends, Opportunity & Forecast 2017 to 2021".

[Clean air forms an important](#) subject of various laws and regulations. Organizations such as the Occupational Safety and Health Administration (OSHA) in the US define the requirements for the quality of clean air. Similarly, various private groups such as the American Society of Heating, Refrigeration, and Air-Conditioning Engineers (ASHRAE) have also published various recommendations to achieve standards clean air quality. As defined by most regulatory authorities, air quality is deemed as clean if it has limited contaminants by volume, commonly measured in parts per million (ppm) or milligrams per cubic meter (mg/m<sup>3</sup>). Countermeasures are taken in order to bring down the volume of contaminants to comply with the set standards. One of the most common measures is the use of self-contained air cleaners.

Air cleaners are used to filter the incoming air by trapping particulates such as dust, pollen, mold, smoke, debris, and bacteria from the air. They are typically used in a wide range of applications, especially in the industrial sector, in which the quality of air is of prime importance. Within the industrial sector, major industries using air filters are, but not limited to, energy, automotive, mining, and cement. The report focuses on the industrial applications of air cleaners.

Covered in this report

The report covers the present scenario and the growth prospects of the global industrial air cleaners

market for 2017-2021. To calculate the market size, the report considers the new installations/shipments/sales/volume/value.

The market is divided into the following segments based on geography:

- Americas
- APAC
- EMEA

The report, Global Industrial Air Cleaners Market 2017-2021, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- Camfil
- Cummins
- Daikin Industries
- Donaldson Company

Other prominent vendors

- 3M
- Air Products and Chemicals
- Alfa Laval
- Clean TeQ Holdings Limited
- Honeywell International
- Mann+Hummel
- Sharp Corporation
- Troy Filters
- W. L. Gore & Associates

Market driver

- Rise in economic activities accounting for harmful emissions
- For a full, detailed list, view our report

Market challenge

- Capacity expansion in renewable power generation
- For a full, detailed list, view our report

Market trend

- Adoption of AMC and HEPA filters in microelectronics manufacturing industry
