

# SEO Content India Achieves Another Milestone With Company's New Modern Office Premises

*Keeping in consideration Company's fast growing needs, the management decided to relocate to a new state-of-the-art modern office to re-energize its operations.*

GHAZIABAD, UTTAR PRADESH, INDIA, August 29, 2017 /EINPresswire.com/ -- After the completion of two years of existence with successful operation since inception in 2015, SEO Content India has been constantly growing in the leaps and bounds. The Company has already attained the

recognition of a reputed name of fast emerging content

marketing agency in India. With operations to handle diverse global clients, an ardent need was felt to fulfil Company's growing needs. It thus decided to relocate to a new state-of-the-art modern corporate office which is easily accessible to everybody.

'There was an ardent need for a modern office which could prove pleasant workplace for our highly energetic team. Now that we got that, relocated and began operations from there, I can feel that new spirit of resurgence in the workforce. It couldn't be possible without hard work of our team and trust of esteemed clientele represented through global locations. They preferred us on others to offer the projects. I am thankful to each and every party and or individuals whose efforts made it possible,' said the media briefing by Company's co-Chairperson, Mrs. Nusrat Sultana.

SEO Content India took this big decision to streamline company's two major project operations—Writing Services Section and Internet Marketing Services Section. As the Company has now enough space to accommodate its team that concentrates on both the Sections for operations, the team is equally feeling energized for the future projects. It was not an easy task to attain such growth prospect in a short time span.

Company's co-Founder cum Manager Operations, Mr. Jamalul Haque spoke on this occasion: 'the idea for the relocation was our well planned strategy. The Company Leadership explored both renting and buying options. Finally, it was decided that better to buy a new modern office space from where newer kind of corporate feel could be developed. Today, that dream of having our place has been fulfilled and we are now ready with a workplace which makes us feel happy.'

He further said that 'getting a new workplace wasn't the end of the journey. It has indeed brought a new set of challenge to accept now. With the space problem being solved, we are bound to work hard to meet the challenges to fulfill our new target.' The Company thus started the drive to retain its qualified and experienced resources, and at the same juncture recruited new team to boost the ongoing projects.
