

The perspective of an idealist HR Expert

Nektar Baziotis quick and effective guide to success

SANTA MONICA, CALIFORNIA, USA, August 28, 2017 /EINPresswire.com/ -- Today is such a nice day, isn't it? Well, it is! You are strong, you are having a good time, you are enjoying everything around you. So, finally, you enjoy being yourself! You may think that nobody understands your struggle, that each day you try to create something and develop your Inner Self more and more.

Hesiodus said that "if you add a little to a little, and then do it again, soon the little will be much". And then, you are surrounded by people who try to criticize your efforts and your state, they call you a loser, they are disappointed in you... Actually, what they are doing is to blame a part of themselves, the part holding them from succeeding in reaching their own targets! Do not feel sad about them. Do not be angry with them! Just love them, therefore, love yourself. Make a closure inside and move ahead. You and your life are much more important than any that could even try to hold you back and away from your happiness!

Nektar Baziotis, ENKI Technologies

Since I remember myself, I have always had one major target: I will never have to tell myself in the mirror: "Why haven't you done this since it is what you really want to do?" Life should be lived to its fullest. **ALWAYS LIVE YOUR LIFE AS YOU WISH TO SHAPE IT!** Think of it and do something that you really like today, without fears, regrets and thoughts of "what the others might say"!

Let's turn impossible to I'm Possible! You came in this life for one and only one reason: to live your life full of love and in bliss! Set aside mind, feelings, and fear! Success is 13 steps away from you to claim it:

1. Clear target, which should be according to: a. Your talents, b. Your educational background, c. You have not mastered yet

2. Organize your ideas and create a plan with concrete milestones,

3. Be disciplined. Not hypochondriac or maniac. Just understand what has to be done, will be done and is only a step closer to reaching your target,
4. Maintain your state of body, mind and feelings in balance. Do not exaggerate on stretching any of them,
5. Do not associate yourself with how others perceive them. Your ideas and life are unique and guided by yourself,
6. Listen to your heart but always check what exists in the market. Your most innovative ideas still have space,
7. Do not feel that you are “miss something”. Fulfillment comes from understanding what is really missing and cannot be covered with what it is easy. The apparent is covered by the easy solution,
8. Do not wait for any acknowledgment by anyone apart from yourself,
9. Be conscious of your present state, do not overestimate or underestimate yourself. In both cases, work harder to evolve,
10. Persistence. Most lost the big opportunity just because they didn't accomplish a final effort,
11. Doing things you do not like may happen only in the case where these will assist your target,
12. Try to excel yourself. Do not stagnate. Keep your mind and heart boiling,
13. Love what you do.
