

Nanoparticle Counting is Newly Defined with TSI's New CPCs

For more than 40 years, TSI's Condensation Particle Counters (CPCs) have paved the way for researchers in nanoparticle counting.

SHOREVIEW, MN, UNITED STATES, August 28, 2017 /EINPresswire.com/ -- Nanoparticle Counting is Newly Defined with [TSI's](#) New CPCs

For more than 40 years, TSI's [Condensation Particle Counters](#) (CPCs) have paved the way for researchers in nanoparticle counting. The new 4th generation of CPCs from TSI will continue to be the benchmark for aerosol research, improving on overall software functionality and performance.

TSI's next generation CPCs are setting unparalleled standards in reliability and usability. CPC data can now be stored in the CPC itself, and stored data can be accessed anytime - even remotely. In addition, the new CPCs are built with the same architecture across all models and platforms, for easy, intuitive use.

Whether you need to calibrate and validate another instrument, or need to compare performance of different instruments, TSI's CPCs are the most trusted choice when it comes to reference counters. Long-term environmental monitoring users can enjoy the new software, which improves the way to screen and export large sets of data.

The next generation of CPCs will not only transform your particle data -- it will optimize your research by eliminating downtime and lowering maintenance costs. Join the leader in the research industry and revolutionize your particle data with TSI's next generation CPCs.

About TSI Incorporated

TSI Incorporated serves a global market by investigating, identifying and solving measurement problems. As an industry leader in the design and production of precision instruments, TSI partners with research institutions and customers around the world to set the standard for measurements relating to aerosol science, air flow, health and safety, indoor air quality, fluid dynamics and biohazard detection. With headquarters based in the U.S. and field offices throughout Europe and Asia, TSI has established a worldwide presence in the markets we serve. Every day, our dedicated employees turn research into reality.

For more information on TSI Incorporated, visit our website: www.tsi.com, check out our page on Facebook: www.facebook.com/TSIIncorporated, or follow us on Twitter: www.twitter.com/TSIIncorporated.
