

Machine Learning Courses Market 2017: New Tech Developments, Advancements, Key Players, Strategies to Boost Growth

The report comes with an associated Excel datasheet suite covering quantitative data from all numeric forecasts presented in the report.

DALLAS, TEXAS, UNITED STATES, August 29, 2017 /EINPresswire.com/ -- Machine learning refers to the continual process of learning followed by computer systems to enhance their knowledge about the subject while improving their performance. The learning occurs as a result of extensive amount of data collection, storage, and analysis done by the system without the help of any specifically programmed instructions. In this technique, the analysis includes identifying various patterns and trends in data obtained and then using it to make future course of actions.

Research analysts forecast the global machine learning courses industry to grow at a CAGR of 16.44% during the period 2017-2021.

The report covers the present scenario and the growth prospects of the global machine learning courses industry for 2017-2021. To calculate the market size, the report considers the fees revenue generated by profit-making machine learning course service providers to the academic and non-academic learner segments.

The market is divided into the following segments based on geography:

APAC
Europe
North America
ROW

Research report, [Global Machine Learning Courses Market](#), has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

edX
Ivy Professional School
NobleProg
Udacity
Other prominent vendors

Edvancer
Udemy
Simplilearn
Jigsaw Academy
BitBootCamp
Metis
DataCamp
The Data Incubator
Data Science Retreat
KnowledgeHut
Analytics Training Institute
SlideRule Labs Inc.
Pluralsight
Market driver
