But our priorities are changing. Once you've been to the top of the mountain, you don't come back for the thrill, you come back for the experience of the team working together towards a common goal. Our next one is to hit 100 million by 2022. The retail world is changing. Consumers are changing. Technology is changing. Our quest going forward is to play a part in defining what retail experience becomes for both brands and consumers in the next 5 years. Are we thrilled about it? We are betting our company on it."
