

# Dental Pain Therapeutics strategies and Product Pipeline Review 2017

---

*Dental Pain Therapeutics Development and Professional Review Analysis 2017*

PUNE, INDIA, August 30, 2017 /EINPresswire.com/ -- Pune, India, 30th August 2017: WiseGuyReports announced addition of new report, titled "[Dental Pain](#) - Pipeline Review, H1 2017".

## Summary

A pain in the tooth is called dental pain. This can be caused by tooth decay, damaged filling, tooth fracture, etc. Symptoms of a toothache may include: tooth pain that may be sharp, throbbing, or constant. In some people, pain results only when pressure is applied to the tooth. Swelling around the tooth, fever or headache and foul-tasting drainage from the infected tooth occurs. Treatment for a toothache depends on the cause.

## Report Highlights

Pharmaceutical and Healthcare latest pipeline guide Dental Pain - Pipeline Review, H1 2017, provides comprehensive information on the therapeutics under development for Dental Pain (Central Nervous System), complete with analysis by stage of development, drug target, mechanism of action (MoA), route of administration (RoA) and molecule type. The guide covers the descriptive pharmacological action of the therapeutics, its complete research and development history and latest news and press releases.

The Dental Pain (Central Nervous System) pipeline guide also reviews of key players involved in therapeutic development for Dental Pain and features dormant and discontinued projects. The guide covers therapeutics under Development by Companies /Universities /Institutes, the molecules developed by Companies in Phase III, Phase II, Phase I, Preclinical and Discovery stages are 2, 1, 1, 1 and 1 respectively.

Dental Pain (Central Nervous System) pipeline guide helps in identifying and tracking emerging players in the market and their portfolios, enhances decision making capabilities and helps to create effective counter strategies to gain competitive advantage. Additionally, various dynamic tracking processes ensure that the most recent developments are captured on a real time basis.

## Scope

- The pipeline guide provides a snapshot of the global therapeutic landscape of Dental Pain (Central Nervous System).
- The pipeline guide reviews pipeline therapeutics for Dental Pain (Central Nervous System) by companies and universities/research institutes based on information derived from company and industry-specific sources.
- The pipeline guide covers pipeline products based on several stages of development ranging from pre-registration till discovery and undisclosed stages.
- The pipeline guide features descriptive drug profiles for the pipeline products which comprise, product description, descriptive licensing and collaboration details, R&D brief, MoA & other

developmental activities.

- The pipeline guide reviews key companies involved in Dental Pain (Central Nervous System) therapeutics and enlists all their major and minor projects.
- The pipeline guide evaluates Dental Pain (Central Nervous System) therapeutics based on mechanism of action (MoA), drug target, route of administration (RoA) and molecule type.
- The pipeline guide encapsulates all the dormant and discontinued pipeline projects.
- The pipeline guide reviews latest news related to pipeline therapeutics for Dental Pain (Central Nervous System)

Reasons to buy

- Procure strategically important competitor information, analysis, and insights to formulate effective R&D strategies.
- Recognize emerging players with potentially strong product portfolio and create effective counter-strategies to gain competitive advantage.
- Find and recognize significant and varied types of therapeutics under development for Dental Pain (Central Nervous System).
- Classify potential new clients or partners in the target demographic.
- Develop tactical initiatives by understanding the focus areas of leading companies.
- Plan mergers and acquisitions meritoriously by identifying key players and it's most promising pipeline therapeutics.
- Formulate corrective measures for pipeline projects by understanding Dental Pain (Central Nervous System) pipeline depth and focus of Indication therapeutics.
- Develop and design in-licensing and out-licensing strategies by identifying prospective partners with the most attractive projects to enhance and expand business potential and scope.
- Adjust the therapeutic portfolio by recognizing discontinued projects and understand from the know-how what drove them from pipeline.
