

# Savi Parking App Helps Drivers to Find & Share Parking Spots - A Powerful Community-based Platform For Vehicles

*Parking is the biggest issue faced by all drivers. To help them to save time in finding a spot, they can use Savi. This mobile app works anywhere in the world!*

KUALA LUMPUR, MALAYSIA, August 31, 2017 /EINPresswire.com/ -- Savi is a car parking finding application available for download from iTunes App Store and Google Play Store. The great thing about this app is simple and easy to use.

Parking issue exists all around the world. 80% of drivers don't know how to spot vacant bays and it takes an average of more than 15 mins for 65% of the drivers to spot one. A waste of time and money!

Savi lets the users search for the ideal places like [parking nearby](#) and they can also [communicate](#) with the other drivers using this app. This app considerably reduces the stress in finding a good parking spot for drivers.

“

Let the crowd manage the parking and let them drive to sustain it - this will change it for the better. Savi is bridging the gaps in the parking world.”  
*Ikmal Baharudin, Savi's founder*

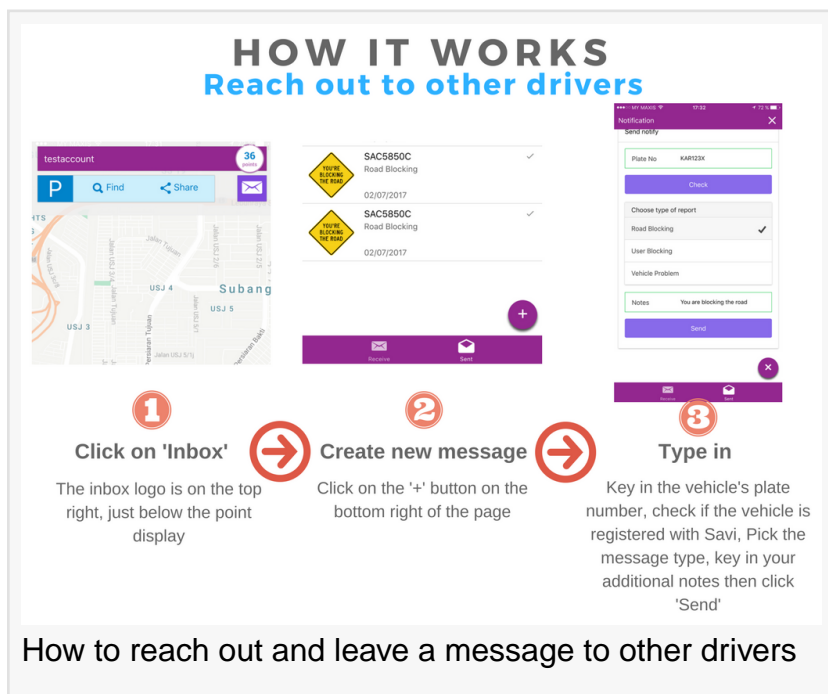

Drivers can now register their vehicles' registration number and they can connect to the network of vehicles in Savi.

The identity of the users will remain anonymous and users to communicate anonymously with other Savi users. Users can earn rewards by sharing their parking and conversely, they can also find a list of nearby parking, shared by other users. They can share public parking they're about to leave and as well as their private parking with other users.

About Savi:

Savi is a free mobile app with in-app purchase. Drivers in busy cities, who wish to avoid spending more time in searching for a parking spot nearby will benefit from this app.
