

# Introducing the First Crowdshopping App to Get Anything For a Dollar

*Ever wondered what the world would be like if anything could be obtained for \$1? It's no more a dream. A gamechanger mobile application is here for everyone.*

DUBLIN, IRELAND, September 1, 2017 /EINPresswire.com/ -- The idea of the [Allyos](#) mobile application is a never-seen, never-tried, although a well-known concept - it's a luxury or branded everyday products and brands-backed crowdfunding platform from now on called "[crowdshopping](#)" app with built-in automatic charity function. Finally, the ideal win-win-win situation that the world has never seen but always wanted.

Simpler than one might think

Allyos is the most user friendly platform right now, proven and tested. To use it, all needed is "in". That's one tap on the screen on a smartphone. It can't be any easier. Anything a user can see and

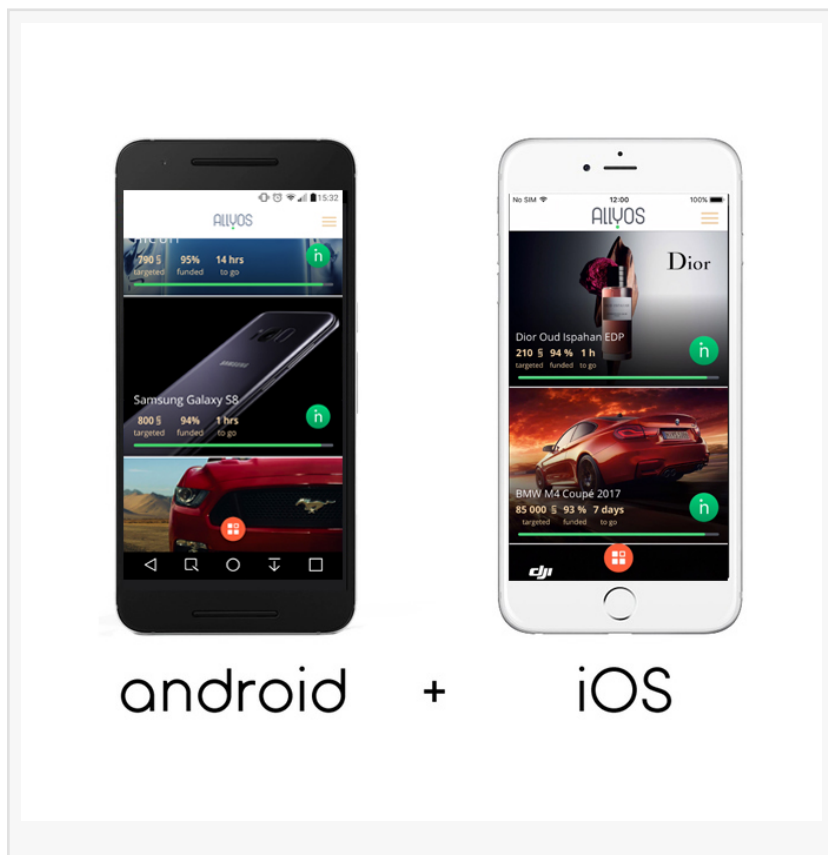

likes, just one tap on the screen and here goes nothing - \$1 has just been added from the integrated wallet to the set target price. The funded rate is displaying, for a user who wants this item there is a certain time-limit to fund the product price. No overfunding is allowed. If the target price is fulfilled in time, one funder will be raffled. Any losers? No. Everyone else gets a discount voucher this way his/her money back. What if the item is not funded in time? Of course, in this case the item is not sold, the target is not fulfilled, so everyone gets the money back.

“

Allyos is awesome. And finally something takes me away from Facebook. LOL. Can you imagine the feeling and craze of a person who gets his first Tesla S for \$1?”

*Selena – UK, insider*

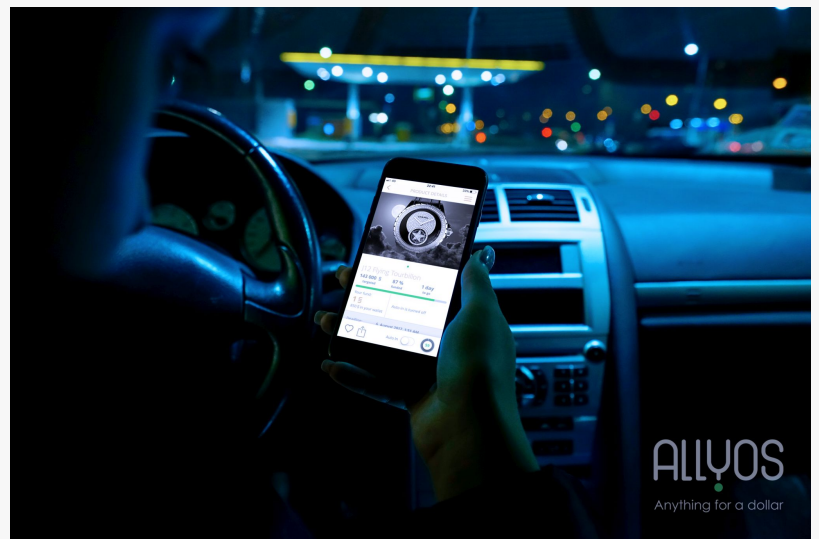

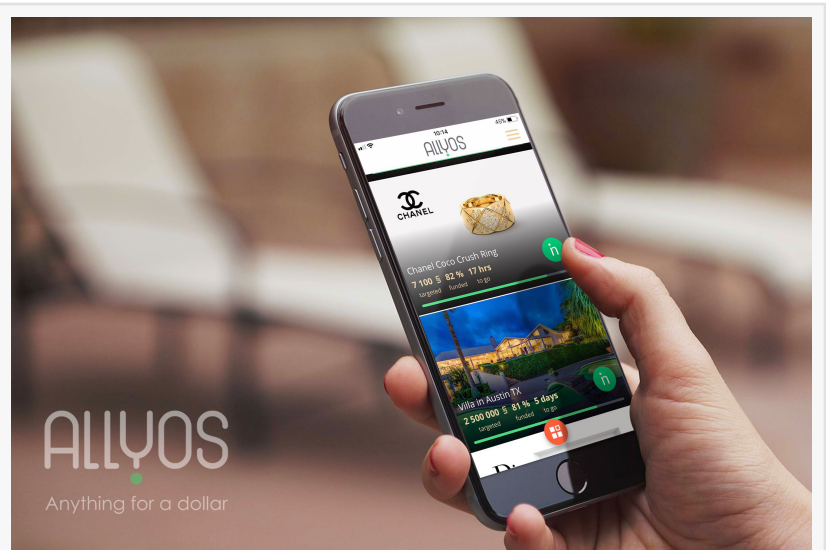

Allyos is excited to grow and open its 3rd stage and launch a campaign on the best crowdfunding platform Indiegogo, on which more users, more crowd can join. This is the power of crowdfunding.

35,500 new users are going to get access through Indiegogo. Thanks to the crowd, that will allow any user to get a nice home, high end luxury car, and literally everything you can think of for \$1. Exciting features will be available exclusively on Indiegogo, the first backers are going to get all the benefits and limited offers. They can be checked out on their website, social pages or watch their tutorial videos on YouTube. Sign up for [pre-orders](#) can be done there so this way no one will miss out the third

stage and the can stay tuned for more info on this highly interesting innovation.
