/EINPresswire.com/ -- [Environmental Consulting Services Market](#):

## Executive Summary

The [environmental consulting services](#) market is witnessing a significant advancement in technology. Such technologies are enabling businesses and households to effectively reduce their carbon footprint. For instance, Bloom Energy developed the fuel cell system technology that has the capacity to produce electricity without burning fossil fuel, thereby reducing emission of greenhouse gases. The company successfully installed the technology for Morgan Stanley's 750 thousand square feet New York office and a 6 acre solar panel field, both installations expected to produce more than 3 million kilowatt hours (kWh) of energy per annum. Projects of this kind provide attractive opportunities for the services of environmental consulting firms.
