Most foundations are loaded with talc which clogs pores which leads to break outs and skin aging and then talc gives an ashy appearance and does not work well with the camera .”

WHEN WE LOOK OUR BEST, WE FEEL OUR BEST!

“Women feel most confident right after they have freshly-applied makeup”. Makeup that is quick & easy to apply, matches to perfection and feels absolutely amazing on the skin! However, as the day goes on, many share how their skin feels as if it’s under attack by heat, humidity and pollution which leads to sweat build-up. This eventually breaks down their foundation. As well, most foundations are loaded with talc which clogs pores (which leads to break outs and skin aging). Foundations are known to feel heavy. As well, talc gives an ashy appearance and does not work well with the camera shared by Beauty Expert Nakeah Fuller, Makeup Artist to the Stars & Founder of Nakeah Cosmetics of Hollywood. With great expertise & uniqueness, this is where Nakeah Cosmetics of Hollywood comes in to offer a must-have organic, talc-free, cruelty-free foundation stick that assures everyone with a fresh look & feel while remaining flawless throughout their day. She believes in helping others to gain & maintain healthy, radiant skin.

Compared to other foundations which often trap in sweat and sebum, leaving the skin oily, causing skin issues over time, Nakeah Cosmetics of Hollywood’s organic ingredients battles all issues enabling its absorption power five times better than regular talc based foundations. One’s skin is actually able to breath freely even when wearing makeup!

Keep that super fresh skin for up to 10 hours with a wide variety of shades to choose from. These foundation sticks will be available for only \$35.00, starting September 2, 2017.
