

PHENOMENAL CHEMISTRY BY THE REAL-LIFE 'WOLF OF WALL STREET'

Jordan Belfort launches new pheromone-based fragrances

DONCASTER, SOUTH YORKSHIRE, UNITED KINGDOM, September 4, 2017 /EINPresswire.com/ -- Jordan Belfort, the real-life 'Wolf of Wall Street' whose life story was immortalised by the blockbuster film starring Leonardo DiCaprio, has launched his own range of fragrances for men and women – Phenomenal and Chemistry.

The Art Of Attraction - Limited edition luxury gift set

Designed at a molecular level to enhance aura and personal magnetism, the aroma molecules in each of the pheromone-based fragrances respond differently and dynamically to each individual user to create unique characteristics when applied.

Both fragrances are the result of a two-year research and development project into pheromones and how they influence individuals and those around us.

Commenting on the new fragrances, Jordan Belfort, said: "The science behind these new fragrances is simple. Pheromones increase your attractiveness, influence emotions and lift your mood and that of others.

"By enhancing the body's chemical signals, the wearer can elevate feelings of excitement, anticipation and irresistibility. Both fragrances can be worn alone to layered together to provide Phenomenal Chemistry for the wearer."
