

Digita and State Security Networks Finland will continue strong cooperation on Virve Network

Digita and State Security Networks Finland will continue strong cooperation on construction and installation services for the Virve network

HELSINKI, FINLAND, September 5, 2017 /EINPresswire.com/ -- Finnish Network Operator [Digita Oy](#) has signed a long-term contract with Suomen Virveverkko Oy, which forms part of the [State Security Networks Group Finland](#), on construction and installation services for the Virve network, which is being overhauled. The agreement will be valid for four years.

The quality and reliability of Digita's services were key criteria when deciding on installation services for the Virve network"

Jarmo Vinkvist, CEO of Suomen Virveverkko Oy

The Virve network is the national radio network for public services, whose users include the public authorities, municipalities, and other actors critical to national emergency supply. Digita maintains communications networks considered critical to society and provides reliable network services for

terrestrial TV and radio broadcasting, and for telecommunications networks.

"We are delighted that our long-term cooperation with the State Security Networks Group Finland will continue. Our company has solid expertise and experience of the design, construction, maintenance and operation of security-critical radio networks, which our national organisation is engaged in implementing," says Juha-Pekka Weckström, CEO of Digita.

"We secure Finland's crisis management and information society services nationwide and in all circumstances. We have been working with Digita for a long time; the quality and reliability of Digita's services were key criteria when deciding on installation services for the Virve network, which will be overhauled," says Jarmo Vinkvist, CEO of Suomen Virveverkko Oy.
