PUNE, INDIA, September 7, 2017 /EINPresswire.com/ -- Summary

According to Statistics MRC, the Global [Edible Packaging](#) Market is expected to grow from \$715.34 million in 2016 to reach \$1245.13 million by 2023 with a CAGR of 8.2%. Raising urbanization coupled with increasing demand for packaged food, growing awareness about food safety, and recent technological advancements in packaging techniques are some of the factors driving the market growth during the forecast period. However, high costs of machineries, stringent regulations are the restraints limiting the market growth.

Among the applications, food & beverage segment is expected to witness high growth rate during the forecast period due to raising market for preserved food products. North America accounted for the largest share in global market due to increasing demand from U.S. Asia Pacific is expected to witness fastest growth on account of growing urban population along with changing eating habits and raising demand from china.
