[Pallet Trucks Market 2017](#)

Executive Summary

A pallet truck is a material handling tool, generally used in warehouses to lift and move pallets. Pallet trucks are the basic form of a forklift. They are designed to move the light or heavy pallets within a warehouse or factory facility. Pallet trucks are used for safe and efficient movement of goods with little effort. There are two types of pallet trucks — manual pallet trucks and electric powered pallet trucks. Manual pallet trucks have a jack that is used to move and lift the pallet truck. Electric powered pallet trucks have a motor built into it, which does the work of moving and lifting the pallet truck.

The analysts forecast the global pallet trucks market to grow at a CAGR of 6.04% during the period 2017-2021.
