

Don't Let Gift Shop Inventory Be a Drag on Your Bottomline – Clear Sky Software Has the Solution

Clear Sky RETAIL provides a more efficient way to order products and improves accuracy during the receiving process via automatic cost updating.

CHARLOTTE, NORTH CAROLINA, USA, September 13, 2017 /EINPresswire.com/ -- [Clear Sky Software](#), Inc. ® announced today the release of [Clear Sky RETAIL](#) for the hospitality industry.

This new software allows hotels, theme parks, zoos, museums, and other hospitality venues to track and control their gift shop items with speed, accuracy and efficiency. Clear Sky RETAIL is offered as a complement to the company's proven [Food and Beverage inventory software](#) and is available immediately for organizations desiring better inventory control in this department.

track and control your gift shop items while saving time AND money!

Clear Sky RETAIL provides a more efficient way to order gift shop products, improves accuracy during the receiving process via automatic cost updating, and easily transfers these products to your various retail outlets. Using our mobile bar code scanners, inventory counting is cut in half and produces faster and better results. Now you can see how much inventory you have on hand and know when to order! Numerous reports are available by date range, location, vendor, item, invoice, etc.. This new system, from Clear Sky Software, eliminates tedious, time-consuming paperwork, manual data entry, and repetitive steps often required to control retail inventory.

“

We are pleased to offer our retail inventory control software aimed at improving the bottomline of hospitality organizations.”
