

'The Fearless Man Experience' Self-Empowerment Seminar is Back in Las Vegas Sept. 22-24

Motivational Expert Zan Perrion Featured Guest Instructor during 3-Day Course

LOS ANGELES, CA, UNITED STATES, September 13, 2017 /EINPresswire.com/ -- Personal development coaches Dave Stultz and Brian Begin, founders of men's success site TheFearlessMan.com, are back in Las Vegas for a special 3-day weekend workshop, The Fearless Man Experience, September 22-24, 2017.

Motivational speaker, attraction expert and life coach Zan Perrion is a featured guest at the event, and according to Begin, "there are a limited number of seats left, so we want to get the word out to men in the Las Vegas area; we are also extending the weekend workshop from the usual 2-½ days to three in order to accommodate Zan and his instruction schedule."

Stultz and Begin will go over their Fearless philosophies with a video review for reference, with two days of working with models for hands-on training, as well as eight hours of 'infield practice'.

Day One will cover fear, its control and how to get past it, social exercises and learning the one skill men must develop for success in all areas of their lives. Day Two will demonstrate subtle communication, model work and feedback and developing 'groundedness and beingness', and Day Three mixes the social exercises and new material for review in real-world situations.

The Fearless coaches will complete the Experience weekend with a Video Holotherapy Review and free audit for students to assess their knowledge and capabilities upon conclusion of the workshop.

"This is a powerful, life-changing event, so Dave and I believe it's essential to follow up and clarify what is personally important and fulfilling to each and every man who comes to us for help," said Begin. "And we know that afterwards, if they continue to follow our Fearless lessons, success is inevitable."

Stultz and Begin launched The Fearless Man as an educational tool to strengthen men's personal power within themselves using video feedback, deep connection work, presence and body consciousness building, core belief, thought, philosophy restructuring and real-world exercises to build confidence in students that builds long-term successful behavior.
