Global [Wind Turbine Components Market](#)

Description

WiseGuyReports.Com adds" Global Wind Turbine Components Market 2016-2020 "Research To Its Database.

Wind turbines harness the power of the wind to generate electricity. The energy present in the wind turns the blades around a rotor, which is connected to the main shaft that spins a generator to create electricity. Conventional power generation is gradually losing its sheen owing to growing environmental awareness. Renewable energy such as the wind and solar have gained popularity worldwide.

Covered in this report

The report covers the present scenario and the growth prospects of the global wind turbine components market for 2016-2020. The report also presents the vendor landscape and a corresponding detailed analysis of the top five vendors operating in the market. The vendors included in the report are component manufacturers and suppliers.

The market is divided into the following segments based on geography:

- Americas

- APAC
- EMEA

The Global Wind Turbine Components Market 2016-2020, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- GE Renewable Energy
- Goldwind
- Siemens
- Suzlon
- Vestas

Other prominent vendors

- Enercon
- Gamesa
- LM wind power
- MFG
- Nordex
- Senvion SE
- TPI

Market driver

- Expansion in offshore wind installations
- For a full, detailed list, view our report

Market challenge

- High failure rate of wind turbine components
- For a full, detailed list, view our report

Market trend

- Increased R&D
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2020 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?

Report Details @ <https://www.wiseguyreports.com/reports/367323-global-wind-turbine-components-market-2016-2020>

Table of Contents -Major Key Points

PART 01: Executive summary

- Highlights

PART 02: Scope of the report

- Market overview
- Top-vendor offerings

PART 03: Market research methodology

- Research methodology
- Economic indicators

PART 04: Introduction

- Key market highlights
- Cost breakdown of wind turbine components

PART 05: Market landscape

- Technological overview
- Market overview
- Market size and forecast by revenue
- Five forces analysis

PART 06: Market segmentation by wind turbine components

- Global wind turbine components market by components
- Global wind tower market
- Global wind turbine rotor blade market
- Global wind turbine gearbox market
- Global wind turbine generator market

PART 07: Geographical segmentation

- Global wind turbine components market by geography
- Wind turbine components market in APAC
- Wind turbine components market EMEA
- Wind turbine components market in Americas

PART 08: Market drivers

- Expansion in offshore wind installations
- Rise in wind energy consumption
- Growing environmental concerns

PART 09: Impact of drivers

PART 10: Market challenges

- High failure rate of wind turbine components
- Potential risk to environment
- High cost of offshore wind installations

PART 11: Impact of drivers and challenges

PART 12: Market trends

- Increased R&D

- Impact of government incentives on wind turbine installations
- Increased adoption of carbon emission trading

PART 13: Vendor landscape

- Competitive landscape
- Other prominent vendors

PART 14: Key vendor analysis

- GE Renewable Energy
- Goldwind
- Siemens
- Suzlon Energy
- Vestas
