Simple rules for a whistleblower from the Georgia Corporate Whistleblower Center: Do not go to the government first

if you are a potential whistleblower with substantial proof of wrongdoing. The Georgia Corporate Whistleblower Center says, "Major whistleblowers frequently go to the government thinking they will help. It's a huge mistake. Do not go to the news media with your whistleblower information. Public revelation of a whistleblower's information could destroy any prospect for a reward. Do not try to force a company/employer or individual to come clean about significant Medicare fraud, overbilling the federal government for services never rendered, multi-million-dollar state or federal tax evasion, or a Georgia based company falsely claiming to be a minority owned business to get preferential treatment on federal or state projects. Come to us first, tell us what type of information you have, and if we think it's sufficient, we will help you with a focus on you getting rewarded."

Unlike any group in the US the Corporate Whistleblower Center can assist a potential whistleblower with packaging or building out their information to potentially increase the reward potential. They will also provide the whistleblower with access to some of the most skilled whistleblower attorneys in the nation.
