Wind Turbine Operations & Maintenance

performance, and competitive landscape of major players

- Analysis on major market forces driving or restraining the growth of wind turbine O&M market at global level
- Data on wind turbine O&M market size, number of repairs, average turbine size at country and global level
- Key company profiles of major wind turbine O&M service providers at country level

Key points to buy

The report will allow you to –

- Facilitate decision-making by providing historical and forecast data in wind O&M sector
- Develop business strategies by understanding the trends shaping and driving the wind O&M industry
- Identify key factors driving and restraining wind O&M activities
- Identify opportunities in the wind sector and plan strategies for the forecast period
- Develop strategies based on developments in the wind O&M market
- Position yourself to gain the maximum advantage of the industry's growth potential
- Identify key partners and business-development avenues based on an understanding of the movements of the major competitors in the wind O&M market
- Respond to your market structure, strategies and prospects

Table of Contents

1 Table of Contents 2

1.1 List of Tables 6

1.2 List of Figures 8

2 Executive Summary 11

2.1 Global Wind Turbine Operations and Maintenance Market Estimated at \$13.73 Billion in 2016 11

2.2 Offshore Wind Power Expected to Contribute 18.4% of Total Operations and Maintenance Market by 2025 12

2.3 Predictive Maintenance Helps in Reducing Wind O&M Cost 12

2.4 China is the Largest Wind Turbine Operations and Maintenance Market in the World 12
