

Solar Home Lighting 2017 Global Market Expected to Grow at CAGR of 20% and Forecast to 2022

Wiseguyreports.Com Publish New Market Research Report On-“Solar Home Lighting 2017 Global Market Expected to Grow at CAGR of 20% and Forecast to 2022”.

PUNE, INDIA, September 19, 2017
/EINPresswire.com/ --

[Solar Home Lighting Market 2017](#)

Executive Summary

The segmentation of the global solar home lighting market has been based on two distinct verticals that exist within the broader market. These are based on the technology used and the services provided. The segmentation of the market is as follows:

- Grid-tied solar home lighting systems
- Off-grid solar home lighting systems

In 2015, the solar home lighting market was dominated by the grid-tied systems, which accounted for nearly 86.35% of the global market.

The off-grid solar home lighting segment is the underweight in the current market conditions. The segment commands 13.65% share of the global market pie.

The analysts forecast the global solar home lighting market to grow at a CAGR of 20% during the period 2016-2020.

Covered in this report

The report covers the present scenario and the growth prospects of the global solar home lighting market for 2016-2020.

The market is divided into the following segments based on geography:

- Americas
- APAC
- EMEA

The report, Global Solar Home Lighting Market 2016-2020, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- Panasonic
- Tata Power Solar Systems
- Shenzhen Yingli New Energy Resources
- Sharp

Other prominent vendors

- GE Renewable Energy
- Su-Kam
- Solarcentury
- Philips

Key questions answered in this report

- What will the market size be in 2020 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?

Table of Contents –Analysis of Key Points

PART 01: Executive summary

- Highlights

PART 02: Scope of the report

- Market overview
- Top-vendor offerings

PART 03: Market research methodology

- Research methodology
- Economic indicators

PART 04: Introduction

- Key market highlights

PART 05: Market landscape

- Market overview
- Market size and forecast
- Five forces analysis

PART 06: Market segmentation by product types

- Global solar home lighting by product types

PART 07: Geographical segmentation

- Global solar home lighting market 2016-2020 segmentation by geography
- APAC
- Americas
- EMEA

PART 08: Market drivers

- Increased focus on environmental protection
- Higher price of kerosene and falling subsidies
- Decreasing price of lighting units

PART 09: Impact of drivers

PART 10: Market challenges

- Limited sales channels
- Competition from counterfeit products
- High import taxes and tariffs

PART 11: Impact of drivers and challenges

PART 12: Market trends

- Dominance of emerging markets
- Increase in government support
