

HP2 eDISCOVERY ANNOUNCES LITIGATION FINANCING FOR eDISCOVERY

HP2 eDISCOVERY AGAIN DISRUPTS THE LEGAL TECHNOLOGY MARKET BY OFFERING LITIGATION FINANCE FOR ITS SERVICES.

DALLAS, TEXAS, USA, September 20, 2017 /EINPresswire.com/ -- Dallas, Texas (September 20, 2017) Principals Jeff Hatley, Bob Pacheco and Roy Plattel announce the availability of litigation financing for its [eDiscovery](#) and related services. Many litigants face the challenge of paying for the collection, processing and managing of large amounts of data needed to prosecute or defend their lawsuits. As data populations grow, so do the costs associated with litigating on the facts contained in the data. HP2 helps lawyers concentrate on litigating and eliminates the cost concerns by offering financing for its services in qualified cases.

In a recent presentation, Roy Plattel, HP2 Principal and Co-founder said, “with the increasing costs associated with litigating lawsuits, many cases are being prematurely settled or not getting filed at all. Lawyers are rejecting profitable cases because the “cost to verdict” is too high. In our big-data world the costs of processing and managing the electronic discovery can out pace all other line item costs in the lawsuit.” The principals at HP2 seek to help put those cases on the docket and the lawyers in the courtroom by providing financing for eDiscovery costs.

HP2 has several financing options available for both Plaintiffs and Defendants. There is no preset amount. Your case needs dictate the amount and terms of the funding.

About HP2 eDiscovery

HP2 eDiscovery is a boutique eDiscovery and data processing firm offering advanced data analytics and litigation management services to law firms and corporate legal counsel. The HP2 team of consultants and data scientists have decades of experience in eDiscovery and data manipulation. The Principals have worked in some of the world’s largest and most complex lawsuits. HP2’s big data experience and understanding is unmatched. HP2 works on all types of cases, small or large. Whether you have a couple of gigabytes or hundreds of terabytes, HP2 has the experience to successfully complete your projects.

The HP2 client centric approach involves you in our processes from beginning to end. HP2 believes working with an eDiscovery company should be easy with predictable and sane pricing.
