Pyramid Codefest - building robust applications for enterprise transformation

ATLANTA, GEORGIA, USA, September 20, 2017 /EINPresswire.com/ -- Atlanta– Tuesday, September 19, 2017. Pyramid Consulting, Inc. held its first-ever Codefest for software development, design and testing teams. The event was hosted in Noida (India), with other teams across all Pyramid global office locations participating.

"

these kinds of events bring out the best in our employees. I was really impressed by the first-rate applications they developed - some of the finest applications are built at unbelievable pace"
Ramesh Maturu, co-founder of Pyramid Consulting

The challenge? Develop an Application in 6 hours by following an appropriate architecture, design patterns and coding standards based on a high level Application requirement. 10 teams of 4 members each chose their technologies, developed a creative UI to maximize user experience, and worked rigorously to produce a highly-reliable application. Each team collaborated to developed its application, and created innovative applications within the guidelines. Participants had a great time experimenting with new technologies, and each team exhibited a lot of pride and satisfaction as they demonstrated their App at the end of the event.

Speaking about the Codefest, Ramesh Maturu, co-founder of Pyramid Consulting, Inc. said, "these kinds of events bring out the best in our employees. I was really impressed by the first-rate applications they developed - some of the finest applications are built at unbelievable pace. Our engineers learned the most up-to-date delivery methodologies and newer technologies during the Codefest. We look forward to holding many similar events that challenge our teams and allow them to showcase both the abilities and aptitude in the near future."
