About Construction Safety Helmets

Construction safety helmets are personal protective equipment (PPE) worn by workers for safety in the construction industry. These safety helmets offer protection against strong head impacts that can be because of flying or falling objects, slip, trips, and falls. Personal protective equipment minimizes the wearers' exposure to specific hazards. PPE consists of full body protection such as gloves, masks, footwear, head and eye protection gear, and shields.

Technavio's analysts forecast the global construction safety helmets market to grow at a CAGR of 4.19% during the period 2017-2021.
