US [3PL Market](#)

Description

WiseGuyReports.Com adds" 3PL Market in the US 2015-2019 "Research To Its Database.

3PL is a business process through which companies outsource their logistics and distribution functions to a service provider that specializes in handling logistics such as transportation, warehousing, and freight and forwarding. A service provider that provides these services is called a 3PL provider. Often, 3PL providers go beyond logistics and provide value-added services such as inventory management, cross-docking, door-to-door delivery, and packaging of products. They also provide strategic and operational value to many shippers worldwide. 3PL uses new and innovative SCM to enhance efficiency.

Covered in this report

This report covers the present scenario and the growth prospects of the 3PL market in the US for the period 2015-2019. To calculate the market size, this report considers net revenue generated by 3PL providers. The report also presents the vendor landscape and a corresponding detailed analysis of the top seven vendors in the 3PL market in the US. In addition, it discusses the major drivers that influence the growth of the market. It also summarizes the challenges faced by the vendors and the market at large, and the key trends that are emerging in the market.
