

TraceGains Growth Continues with the Addition of Jaime Hayden, Systems Development Lead

DENVER, COLORADO, UNITED STATES, September 25, 2017 /EINPresswire.com/ -- [TraceGains](#), the leading compliance software solution, revolutionizing information exchange across the supply chain for Food, Beverage, and CPG companies has expanded once again with the addition of Jaime Hayden as Systems Development Lead.

Hayden boasts more than 20 years of experience designing, developing, deploying and supporting web-based business applications. Most recently, Hayden was responsible for back-end API design, integrations with 3rd party CRM and IVR systems, and updates to First Tracks CRM platform to support client integrations. Hayden's career also includes managing multiple development efforts including a CRM platform and the subscription model for it.

“We are excited to have Jaime join our team and are looking forward to applying his experience to Revolutionize Information Exchange across the Supply Chain,” shared AJ Dolan, Chief Technology Officer, TraceGains.

At TraceGains, Hayden will be responsible for the design, development, implementation, maintenance, and internal support of our TraceGains systems.

“I am very excited to join a growing Research and Development Team here at TraceGains,” Hayden added. “I look forward to digging into our existing products and using my expertise to keep our products advancing forward.”

Hayden holds a Bachelor of Arts degree in Economics with a minor in Mathematics from University of Colorado, Boulder.

About TraceGains

TraceGains is a rapidly growing software company, delivering a sophisticated suite of products for food, beverage, and CPG companies. TraceGains solutions empower our customers to satisfy compliance with regulations and industry standards such as FSMA, GFSI, and HACCP, without the need for additional staff.

At the heart of TraceGains is a robust platform that enables companies to automate and optimize their processes through instant information sharing and collaboration between supply chain partners, which saves time and improves food safety and quality.

TraceGains is the winner of the 2016 Stratus Award for Cloud Collaboration. The company is also among the Food Logistics Top 100 software and technology providers and was named a Top 20 Information Technology Firm by ColoradoBIZ magazine.
