About Used and Refurbished Robots

Used and refurbished robots are disassembled, inspected, tested for replacement of any mechanical/electrical component, and then reassembled back to their original state. These robots are also called reconditioned robots. Used and refurbished robots market in Europe is segmented on the basis of application, end-user, and geography. In the wake of transforming manufacturing processes worldwide, industrial robots are gaining a lot of traction from industrial users. The introduction of Industry 4.0 by the German government to revolutionize the production is the primary factor due to which artificial intelligence is implemented across factories.

Technavio's analysts forecast the used and refurbished robots market in Europe to grow at a CAGR of 6.66% during the period 2017-2021.
