

Equity Credit Union Adopts Smart Solution's Universa Loan Origination System (LOS) & its Alert Management Module (AMM)

Smart Solution's fully integrated, comprehensive LOS & AMM products aid financial institutions with rapid, secure processing & settlement of client transactions

AURORA, ONTARIO, CANADA, September 26, 2017 /EINPresswire.com/ -- [Smart Solution](#) is pleased to announce that Equity Credit Union has agreed to adopt both its [Universa LOS](#) and Universa AMM products as integral parts of the Universa Premier Core Banking System already used by it. The Universa LOS

software integrates seamlessly with the Universa Suite and enables financial institutions to dynamically define and/or test risk related rules and ratios as well as initiate and/or pursue more aggressive loan portfolios. Universa LOS provides users with advanced performance monitoring, audit trails, compliance and regulatory requirement awareness. The Universa Alert Management Module for iBank–Internet Banking allows the financial institution to provide an email and/or SMS text message-based alert to its members to advise them of account balances, transactions done, security or fraud-related notifications and general small business alerts.

The Universa Suite of products is an integrated suite of core financial processing and management solutions that boasts advanced systems administrator security as well as high security functionality. Universa is a state-of-the-art, robust, browser-based banking platform, incorporating the latest in technological advances. As a leading provider of banking and financial management solutions, Smart Solution continues to enhance and solidify the reputation of Universa as one of the most prominent contenders in cutting-edge banking platforms both in Canada, as well as in the Caribbean.

“We are excited to start using Universa LOS, which will give us enhanced capabilities to process the various financial instruments in which our members are interested and in which they wish to participate. And Universa AMM will provide us with another layer of rapid communication with our members which fits in perfectly with our mission to constantly enhance our member service strategy,” said Tom Dimson, CEO of Equity Credit Union.

“We are delighted that this existing Universa Core Banking platform client, using our SaaS model for business processing, has chosen to implement both the Universa Loan Origination System and the Universa Alert Management Module to provide additional functionality and support within its overall service program,” stated Ilean Tait, President and CEO of Smart Solution. He added that, “Universa LOS will provide this client with the ability to manage a wide range of loan applications, lines of credit (LOCs) and other financial instruments in parallel while significantly reducing application processing

time and greatly enhancing the service to its members. The Alert Management Module will enhance existing communications with Equity's members, especially at those times when rapid notifications or responses are required."
