

SightSpace Pro Mobile Expands Augmented and Virtual Reality for Architecture and Construction

Enables Sharing Interactive, Immersive AR Experiences for 3D Models; Now Integrates with Apple's ARKit

BOULDER, COLORADO, UNITED STATES, September 27, 2017 /EINPresswire.com/ -- Limitless Computing® Inc., the award-winning leading provider of 3D mobile [Augmented Reality](#) (AR), today announced SightSpace® Pro 4.0 for immersive and interactive visualization of 3D models in real-world environments for Apple and Android users.

[SightSpace Pro](#) now supports Apple's ARKit, and combined with geolocation technology, provides a complete AR experience for Apple users from the office to the field.

For easy access from anywhere, at any time, Apple and Android users can simply sign in to SightSpace Pro with their Google account and find their models, including those stored on the SightSpace Cloud.

"Communicating design visions with clients and colleagues has been a challenge for many architecture and construction professionals," commented Jeffrey Franklin, CTO, Limitless Computing Inc. "By emailing a SightSpace Share Code to a client, our users can share projects securely with any metadata they choose. Anywhere there is a Share Code - in email, on blueprints, on a construction site - anyone with a mobile device can have an interactive, immersive, Augmented Reality experience. It's Augmented Reality for everyone."

SightSpace Pro provides an Augmented and Virtual Reality experience for all major [3D modelling software](#), including Trimble SketchUp, Autodesk, Graphisoft ArchiCAD, Solidworks, and .DWG.
