

The shopTRENCHLESS.com™ Company Launches Website for Online Trenchless Pipe and Plumbing Solutions

RICHMOND, TX, USA, September 29, 2017 /EINPresswire.com/ -- shopTRENCHLESS.com LLC announced the launch of its website targeting residential and commercial plumbing contractors and suppliers, as well as utility contractors and municipalities' maintenance divisions. shopTRENCHLESS.com is an online marketplace empowering the industry to source the next generation of trenchless pipe and plumbing solutions.

The shopTRENCHLESS.com marketplace offers on-demand delivery of a wide range of materials and equipment focusing on trenchless pipe and sewer repairs. These include pipe crawlers for inspection, pipe and drain cleaning systems, lateral cutters, sewer robots, manhole repair materials, point repair systems and much more.

“We believe this is a great way to reach more of our potential customers,” said Steve Kerby, VP Sales at Source One Environmental. “We also like the marketplace approach because it makes it more efficient and convenient, not only to purchase our products, but other useful tools and replacement parts the utility contractor and plumbing trades need, as well.” Shoptrenchless.com will focus on presenting only high quality and proven solutions used for non-invasive and trenchless infrastructure renewal. ShopTrenchless.com plans to add new vendors monthly in an effort to lead the industry in online availability and purchase of cutting-edge pipe and plumbing repair technologies.
