

11 Key Takeaways from Pre-Filled Syringes Europe 2018 - An Update on Injectable Devices and Parenteral Drug Delivery

SMi Group release key takeaways from the agenda of the 10th Annual Summit, Pre-Filled Europe 2018.

LONDON, ENGLAND, UNITED KINGDOM, October 9, 2017 /EINPresswire.com/ -- Due to overwhelming interest, SMi Group have added more content onto the agenda for their 10th annual European conference and exhibition on [Pre-Filled Syringes](#) taking place on 17th and 18th January in Central London.

Notable highlights will include:

1. An opening keynote address by the MHRA. This will be followed by insight into guidelines for auto injector requirements and the updated USP<1207>. Current policy within the EU and US framework will also be discussed.
2. Lessons learned to overcome global challenges in combination products through a case study on cardiovascular risk reduction by Novartis Pharma
3. Terumo Pharmaceutical Solutions discuss the importance for minimising risks of protein interaction with surfaces and materials of the container closure system, to eliminate immunogenicity and ensure drug safety and efficacy.
4. Worrell explore innovative mixed reality and voice-enabled technologies to improve medication, therapy adherence and long-term patient engagement.
5. Shire discuss who to facilitate meaningful differentiation of products by establishing a culture of innovation through existing platforms and guiding principles.
6. West Pharmaceuticals and Janssen discuss patient centricity and human factors on the path to safe injectables. Attendee's will hear about common user problems, statistics and legislation for safety systems and learn more on why human-centred design matters.
7. Boehringer Ingelheim and Nemera offer informed guidance on primary packaging material selection, drug product stability, manufacturing, large volume injectables and device safety to meet specialised demands in parenteral drug products.
8. Mitsubishi Gas Chemical showcase new technologies in multilayer plastic syringes and component design to optimise PFS performance.

9. Amgen and UCB bridge the gap in drug delivery innovation through cutting edge insight into future technological developments surrounding vials, iv, handheld injectors and wearable devices.

10. Novo Nordisk and Intertek draw from case studies on leachable assessment in prefilled syringes to mitigate risk in chemical compatibility.

11. Lonza provide strategic direction on how to overcome hurdles in the development and application of highly concentrated formulations through insight into protein stability, device functionality, highly concentration formulations and SC volume limitations.

SMi's 10th annual 2018 [Pre-Filled Syringes Europe](#) conference and exhibition will take place on 17th & 18th Jan at the Copthorne Tara Hotel, Kensington, London UK.
